Jr. Specialist: LUCE Foundation Grant, UC Merced

Posted: 10-02-18  Disciplines: HSS, STEM  Location: CA

Recruitment Period
Open October 1st, 2018 through November 1st, 2018

Description

The University of California, Merced, is the newest of the University of California system’s 10 campuses and the first American research university built in the 21st century. With more than 7,500 undergraduate and graduate students, UC Merced offers an environment that combines a commitment to diversity, inclusion, collaboration and professional development. With bachelor's, master's and doctoral degree programs, strong research and academic partnerships, and community involvement, the UC Merced campus is continually evolving and requires talented, knowledgeable and dynamic educators, researchers, management and staff.

Ranked among the best public universities in the nation by U.S. News and World Report, UC Merced is uniquely equipped to provide educational opportunities to highly qualified students from the San Joaquin Valley and throughout California. The campus enjoys a special connection with nearby Yosemite National Park, is on the cutting edge of sustainability in construction and design, and supports the economic development of Merced and the region.

In Fall 2016, UC Merced broke ground on a $1.3 billion public-private partnership that is unprecedented in higher education. The Merced 2020 Project will nearly double the physical capacity of the campus by 2020, enhancing academic distinction, student success and research excellence. UC Merced is also building the Downtown Campus Center, a $33 million, three-story administrative building in the heart of Merced.

Job Description: This 50% position will provide logistical support for the project “Building Research Partnerships in the San Joaquin Valley: Community Engaged Research and Graduate Mentorship in the Interdisciplinary Humanities,” involving scholars and community organizations. The person in this position will assist with designing and managing a digital humanities lab. They may lead workshops and training sessions for graduate students and faculty and will support faculty and graduate student projects in digital and public humanities. This individual will also assist with grant writing to sustain activities of the lab. Logistical support for projects may entail event planning, coordinating calendars, and travel arrangements.
