Such an insight as to the supererogatory–wholesomeness/profound-supererogation\textsuperscript{96} of organic-knowledge for say present-day institutional-development–as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential crises (with these associated elements including their mental/psychological suitability construed as the requisite epistemic-growth/disquiet/discomfort-{\textit{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as-}} historicity-{\textit{science/authenticity/nonextrication}}-beyond-mere-formulaicity-as-

This reality about the supererogatory–wholesomeness/profound-supererogation\textsuperscript{96} of organic-knowledge is relevant in all institutional domains as well but for when it comes to conveniencing, popularising, merchandising and media-ratings driven purposes which may be innocuous in other contexts
but turn out to be particularly consequential when permeating and undermining the political 
process as to when human sovereign participation is in-effect construed as utterly dissociated 
with ontological-veracity; as to the fact that there can be ‘a thin-and-tenuous line between 
onological-good-faith/authenticity\(^69\) imbu ing sublimation and ontological-bad-

sublimating as to their specific aestheticising/creative/artistic existentialising–frame-of-

when poorly aestheticised out of such specific aestheticising/creative/artistic existentialising–
frame-of-entailment of motif and apriorising/axiomatising/referencing or when 
‘circumstantially appreciatively aesthetically shallow/encumbering/vague/bland/incomplete/etc.’ or when poorly reflected in domains of

(requiring in all such cases the appraisal of appropriate

It can be appreciated in this regards as to the archetypal case of Galileo prosecution that in many ways the technical demonstrations with his telescope were more or less accommodable to his persocutors with their grander issue being the implications of his interpretations on their overall non-positivising/non-rational-empiricism conception of the world; and in many ways such an attitude is not exclusive to any one Age and society, and our very own positivism—procrypticism as to its occlusiveness is very much bound to turn a blind eye to its inconvenient

But then such a challenge become more prescient and acute when mere sterile/anecdotnal institutional imprimaturing displays an aptitudinal re-ontologising—incompetence gesturing (that can effectively be so-construed as incompetent by the fact that critical members of the ‘overall social intellection-aptitude body’ are able to grasp the appropriateness of aptitudinal re-ontologising—competence gesturing as to their relevant generalised aptitudinal re-ontologising—competence gesturing associated with the mastery of their various specialisms as well as their general knowledge interests); as so-implied herein and so-appreciated in unblurred domains-of-study with regards to requisite ‘postconverging—nonextricatory-existential-preempting-of—existential—unthought ontological-contiguity’ aptitudinal re-ontologising—competence gesturing’ while avoiding ‘preconverging—existential-extrication—as-of-existential—unthought notional—totalisingly-disentailing—discretion/whim-of-thought aptitudinal re-ontologising—incompetence gesturing’ (and so-specifically elaborated herein as to projective-insights for the appraisal of sublimating momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity—relativism—determinism’> so-enabled only by a developed sense of metaphysics-of-absence—{implicit—epistemic-veracity—of—nonpresencing—<perspective—ontological—

perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming’ speaks of a surreptitious self-anointedness that do not veridically reflect advantageously upon prospective individual, institutional and social emancipation/sublimation possibilities but rather speaks to an undercurrent of vague domineering that is not socially accounted-for (especially as can be reflected as from the ‘dragged-out nature or psychologismic–epistemic-acutisation-as-to-postconverging–dementating/structuring/paradigming–eliciting-of-existence’s-sublimating-nascence-in-prospective-aporeticism–overcoming/unovercoming’ as to epistemic-growth,–as–{veridical/sound}–relative-reflexivity–in-existence/relativising–from-limited-mentation,–as–its-deepening’ of ‘prospective reference-of-thought appraisal of sublimating–nascence comprehensiveness/nonimmediacy/indirectness’) but for a mere sense of social ascendency which paradoxically leaves in its ‘non-ontologising/disontologising wake’ socio-econo-political crises and malaises to which the majority of the citizenry only come across in serenity as to their numbed/manipulatable/gullible underlying sense of common nation-belonging (and most critically manifests of a veridically suboptimal human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> capacity). In this regards, it is herein contended that veridical thought do not need any protection from itself with such covert/underhanded/minioning attitude of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge manifestation which is very much paradoxical as it is rather more socially dangerous (as to when it implicitly posits to ‘covertly police’ right/sound thought) in the sense that it is exactly the need for right/sound thought that can protect society against unsound thought and there is no neutral/objective presencing—absolutising-identitive-constitutedness state of thought that knows of unsound thought beforehand without the prior opened cultivation of right/sound thought (with such non-ontologising/disontologising surreptitious knowledge-without-

The opened cultivation of right/sound thought is the appropriate existential social validation of sublimation/emancipation (rather than a non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge substitutive subterfuge of ‘process/processive mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology’ devoid of supererogatory—wholesomeness/profound-supererogation as of prospective reference-of-thought—point-of-devolving/departure/anchoring/backdrop of sublimating–nascence’) as to underlining individual-by-institutional-by-social epistemic-growth/disquiet/discomfort—{induced-sublimation,—as-from-existence’s—effusing/ecstatic—inlining—as-historiality—{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing—{science-ideology/fashionability/distraction}})). This further explains ‘human originary–and–re-orginary impliciting of the necessity of a projective construal of ontological-contiguity’/immanent-ontological-contiguity’ in reflection of ‘the very contiguity of existence’ as to the underlying ‘existentially assessable–and–reassessable overall expectation of consistency/coherence of existence that enables the intelligibilities of

By extension, ‘the very contiguity of existence’ also underlines/emphasises that ‘the overall phenomenal/manifest–subpotencies\(\langle\text{in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence}\rangle\) in existence’ are of ontological-

‘metaphysics-of-absence_epistemic-projection’> is more decisively potent in undermining such induced desublimating; such that such ontologising misconstrual in the natural sciences is rather of a ‘tepid problem-of-direction of sublimation’ that hover in many scientific fields given inherent human limited-mentation-capacity. On the other hand, such an ontologising misconstrual about requisite limitedness/human-subpotency cumulating/recomposuring exactifying/precisioning—of-sublimation—<as-to-postconverging—narrowing-down—apriorising/axiomatising/referencing—entailing-theoretical,—conceptual-and-operant-implications> associated with many a social domain can actually go unthought/unnoticed as to the overt or covert non-ontologising/disontologising motive arising from the strong emotional—

In this regards, such a ‘relationalism misconstrual’ (as to philosophical and epistemic implications) is rather a philosophical misconception of the epistemic implications of Einsteinian relativity notion (as to the reality that both Newtonian physics and Einsteinian physics are ‘epistemically relational’ but with the epistemic relevance arising as of their respective {flawed/unsound} relative-unreflexivity—in-existence/absolutising—from-limited-mentation> in prior relative-ontological-incompleteness and {veridical/sound} relative-reflexivity—in-existence/relativising—from-limited-mentation, as-its-deepening in prospective relative-ontological-completeness as of varying ‘limitedness/human-subpotency epistemic sublimation implications’ and not arising as of the ‘vague epistemic implications with regards to prospective sublimation’ of such a ‘relationalism misconstrual’ that manifests ontologically-flawed ‘apriorising/axiomatising/referencing equating/leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology moronisation—<sublimating—nascence,—desublimative—downstreaming/‘avalage’>’ undifferentiation of both the prior relative-ontological-incompleteness and the prospective relative-ontological-completeness), as to the fact that relativity (as to Einstein’s ‘developed epistemic sense of nonpresencing—<perspective—ontological-normalcy/postconvergence> relativism/relative-scope as projective-insights’) speaks of Einstein’s epistemic/notional impliciting of a difference-confledatedness—as-to-

domain of concern the diametricality of limitedness/human-subpotency and
unlimitedness/existence-<full-potency-of-sublimating—nascence> speaks respectively of the
‘possibility of transcendence of limitedness/human-subpotency’ as rendered potential by the
‘already given immanence of unlimitedness/existence-<full-potency-of-sublimating—

is simply ‘(limitedness/human-subpotency) notional-reflexivity<\{veridical/sound\}-relative-reflexivity–in-existence/relativising–from-limited-mentation, as its deepening—by—\{flawed/unsound\}-relative-unreflexivity–in-existence/absolutising–from-limited-mentation> of immanence (immanent-existence)’. Such that all potential possibilities of limitedness/human-subpotency transcendence/sublimation are rather as of epistemic-growth,—as—\{veridical/sound\}-relative-reflexivity–in-existence/relativising–from-limited-mentation, as its deepening’ with such a ‘relationalism misconstrual’ as to its \{flawed/unsound\}-relative-unreflexivity–in-existence/absolutising–from-limited-mentation rather implying an exercise of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity’~educed–existentialising/contextualising/textualising-contiguity’. But then given their impliciting nature the use of the term relation/relational/relationalism in the natural sciences and mathematics is often ‘undergirded in-effect epistemically by reflexivity as to epistemic-growth,—as—\{veridical/sound\}-relative-reflexivity–in-existence/relativising–from-limited-mentation, as its deepening’ which is the compulsory rule-of-thump for ontological-veracity; and so, of ontological-veracity, when such ‘impliciting of relation/relational/relationalism’ is as of ‘the conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism<reifying{as-to-knowledge-developing}-and-empowering> of prospectively implicited_attendant–ontological-contiguity’~educed–existentialising/contextualising/textualising-contiguity’’ and not prior mere-formulaicity<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising,-prospectively-losing-track-of-‘epistemic-totalising –apriorising/axiomatising/referencing–residuality—in–re-originariness/re-origination’>’ imbued elaboration-as-to-mere- extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity’~educed—

In other words, the natural sciences sublimating—nascence incipience/immediacy/directness (in reflecting ‘the constraining/defining intersolipsistic reflexive—sublimating/unreflexive—desublimating measure/objectification that is unlimitedness/existence—as-ontological-normalcy/postconvergence—in-validation-of—metaphysics-of-absence_epistemic-projection’) speaks of the ‘constraining incipience/immediacy/directness of their manifest sublimation/desublimation’ that inherently correct their conceptualising (as quite often in the natural sciences ‘initial manifest sublimation tends to precede initial overall insightful conceptualisation of the reason for the manifest sublimation’); however ultimately and as equally required with social—and—institutional—frameworks—of—referencing/registering/decisioning existentialising—decisionality, such initial nascent—particular/incipient—and—material/technical—sublimations—blinded—to—their—relative—ontological—completeness—reference—of—thought—devolving needs to reflexively be reconceptualised as of its ‘supererogatory—wholesomeness/profound—supererogation’ as of prospective reference—of—thought—point—of—devolving/departure/anchoring/backdrop of sublimating—nascence (so—underlied by the reflexivity as of epistemic—growth,—as—{veridical/sound}—relative—reflexivity—in—existence/relativising—from—limited—mentation, as its—deepening of the prospectively implicated_attendant–ontological-contiguity—educted—existentialising/contextualising/textualising—contiguity from whence veridical conceptivity/epistemic—reflexivity/epistemicity—relativism—determinism—reifying—as—to-knowledge—developing—and—empowering can arise). In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaninglessness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resouces and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a preconverging/postconverging–de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially
as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus
speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while preconverging/postconverging–de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical preconverging/postconverging–de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can preconverging/postconverging–de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’.

Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as
in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and preconverging/postconverging–de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-
extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory-progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness-<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-
sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-
desublimation> of presencing—absolutising-identitive-constitutedness social-
vestedness/normativity-<discretely-implied-functionalism>). Further the capitalistic model as
to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting-
by-rejection of human supererogatory–progressivity possibilities’ increasingly brings peoples at
loggerheads across races, classes, regions and nations with the implication that since it is
centrally/critically defining as to the modern-day statal conception of social supererogatory–
progressivity possibilities, there must necessarily be losers and winners with no creative
supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a
profound humanity-level creative supererogatory–progressivity as well as decolonised–
capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and
social supererogatory–progressivity’. Such a representation as herein articulated of the truer
supererogatory–progressivity (however the ‘shallow-supereration of supererogatory–
progressivity’) beneath the capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of
social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an
absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the
renting and skewed value-extraction capitalistic model (as so-enculturated socially and
mediatically as to presencing—absolutising-identitive-constitutedness social-
vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of
supererogatory–progressivity is strongly seen with the state-driven Asian and European
supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-
competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic
economic theorising’ but on the more veridical realism of policy-driven supererogatory–
progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–
progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection/lip-servicing/monopolising/gaming-of-the-system/charade/distraction vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that preconverging/postconverging–de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity <profound-supererogation ~of-mentally-aestheticised~postconverging/dialectical-thinking –qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the ’s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-
constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the preconverging/postconverging–dementative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme ’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness -of- reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about causalilty ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 's; and rather poorly interpreted by
virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding/formative–epistemicity> totalising–self-referring-syncr~interiorising/interiorising/akrasia-drag prior relative-ontological-incompleteness-of-reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity

In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a \textsuperscript{103} universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process\textsuperscript{69}, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating\textsuperscript{25}’

(<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation), and Heidegger’s issue should have actually been about future Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology just as Descartes issue in articulating budding-positivism/rational-empiricism (traditionally construed-as-rationalism) was not with setting up its “meaningfulness-and-teleology” in contention with prior non-positivism/medievalism as of the then projective future Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology of positivism/rational-empiricism, apart from mere
intellectually contrastive elucidation, but rather implied affirming prospective positivism as of its very own apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme; and so as of the fundamental implication of positivism prospective relative-ontological-completeness-of-reference-of-thought over non-positivism/medievalism prior relative-ontological-incompleteness-of-reference-of-thought. We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity as of prospective relative-ontological-completeness-of-reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘preconverging/postconverging–de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘preconverging/postconverging–de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the
Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context postconverging~aporeticism—overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating

That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism

from the budding science of the days of Galileo and Copernicus, to Newtonian science, to
Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their knowledge-reification–gesturing—<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— conflatedness <in-{preconverging-disentailment_by}–postconverging-entailment> rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation —<as-to-perspective–ontological-normalcy/postconvergence-implied–'prospective-aporeticism-overcoming/unovercoming’>’. scam studies meant to undermine the validity of underlying constructivist and relativist insights
about existential reality as implied by postmodern-thought including with respect to such
implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to
the authors of such scam studies coming out with the arguments of their ‘intendedness of
invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres
for preempting a given orientation of thought ‘not because of the inherent invalidity of such
orientations as of inherent theoretical knowledge arguments in undermining such orientations’
but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such
orientations without truly engaging in undermining its theorisation. Bogusness or non-
bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for
‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-
effect relationships, and in practical terms many scientific studies are rather elaborated as of
‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect
determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot
be construed as scientifically valid with respect to any given orientation of study renders such
manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however
genuine their authors are of intent. It is very much important in this regard that intellectuals,
whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) Further, it is important to grasp that ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ is actually associated with all the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of all the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions, but that what is particular with notional–deprocrypticism summoning of ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of- existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied by its ontologically-uncompromised—referentialism

Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good...

The insight here about reification is that all their intemporal value references are rather as subsumed in their ‘positivistic reification of meaningfulness-and-teleology\(^9\)’ as of their prospective relative-ontological-completeness\(^8\) reference-of-thought with the corresponding implications of human ‘prospective positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-performance\(^7\) \(<\text{including-virtue-as-ontology}\>)’ as aetiologisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments \(^8\). This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology\textsuperscript{99} that there is and can exist is ontological as of prospective relative-ontological-completeness\textsuperscript{87}, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness -of- reference-of-thought, as so implied from singularisation-\&lt;as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{61}nonpresencing\&gt; projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology\textsuperscript{99}. This points out that as of its very own \&lt;amplituding/formative-epistemicity\textsuperscript{34}&gt;totalising\textsuperscript{83}-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34}, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness -of- reference-of-thought reification of meaningfulness-and-teleology\textsuperscript{99}, as we

to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>′–existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to <amplituding/formative–epistemicity> causality as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating–ontological-contiguity reflection of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness–of–reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipating vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied
transcendental knowledge as of prospective relative-ontological-completeness\textsuperscript{57} -of-\textsuperscript{82} reference-of-thought; and in due course, by its <amplituding/formative-epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholdening/outlier-conceptualisation⟨(imbued-postconverging/dialectical-thinking/~projective-insights)‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation⟩ potential for prospective intellectual emancipation, and so rather as of preconverging/postconverging–dementative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness -of- reference-of-thought with the latter’s <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1}, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\textsuperscript{67} constraint as of <amplituding/formative-epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\textsuperscript{58} -of-\textsuperscript{1} reference-of-thought naïve non-transcendental
"amplituding/formative–epistemicity>totalising–self-referencing-

transcendentally projecting intemporal mental-disposition is rather uncanny about the
‘preconverging-existential-extrication-as-of-existential-unthought malignity reality of
existence’ construed as pragmatic living, but this rather confirms the ‘dereifying
irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in
their 60-to-100 years of existence reality of “meaningfulness-and-teleology”’. The intemporal
‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of
aetiology/ontological-escalation is ever always a reasoning-through/messianic-reasoning
that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought
deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the
‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-
reality/ontological-veridicality over the denaturing mortals that we are for our prospective
emancipation. Without an insight about reification and dereification, the notion of

ontological-completeness-of-reference-of-thought for ontologically-veridical
meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in
dereification will be teleologically-elevated and meaning produced as of reification will be
teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation

The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the-very-same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^\text{\textsuperscript{34}}\), as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In
this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency\textsuperscript{17}–sublimating–nascence, disclosed-from-prospective-epistemic-digression: will question such reasoning–from-results/afterthought basis of palliative virtue constructs especially as of their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} and lack of dispensing-with-immediacy-for-relative-ontological-completeness –by-reification/contemplative-distension\textsuperscript{34} of reference-of-thought-by-reification/contemplative-distension implications; ask whether by definition a registry-worldview/dimension \textsuperscript{83}reference-of-thought is postconvergingly–de-mentated/structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the need for the subversion of its \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} that endemise-and-enculturate its vices-and-impediments\textsuperscript{145} by prospective \textsuperscript{8}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the-very-same non-positivism/medievalism in need for prospective positivism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal \textsuperscript{9}meaningfulness-and-teleology\textsuperscript{99} <preconverging–‘motif-and-apriorising/axiomatising/referencing’–entailing>–existentialising—enframing/imprintedness–{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} frameworks and temporal mandarinism and

{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness  } frameworks; and, hence the ontologically-veridical paradox of the very postconverging–dementating/structuring/paradigming implications of human limited-mentation-capacity-deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon/projection’ apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—constitutedness {in–preconverging-entailment construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness {in–{preconverging-disentailment–by}–postconverging-entailment that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\(^5\) implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional-conflatedness\(^1\) of notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing.\(^4\)

Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^8\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^9\) of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation as of ‘attendant-intradimensional’

episteme which is not of sublimative-reflexivity—beholdening to prospective institutionalisation and it is rather of preconverging-existential-extrication-as-of-existential-unthought relation to it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation postulate that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much
countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gestureing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought as to ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipating virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency- {transparency-of-
totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}. Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^6\) —of-the-human-institutionalisation-process\(^8\) as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^9\) as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\(^5\), by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\(^5\) in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency\(^10\) of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-
ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity<br/>&lt;between—prior-shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema and prospective-profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema&gt;. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event–or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism/relative-scope make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their
doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism/relative-scope is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking - 'projective-insights'/epistemic-projection-in-conflatedness - of-notional-deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing-in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity –conflatedness –in–preconverging-disentailment-by–postconverging-entailment insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity —of-the-human-institutionalisation-process as of difference-conflatedness –as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> –as-veridical-epistemicity-relativism-determinism implied <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective- nonpresencing.-for-explicating-
ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology<sup>6</sup>–<in–preconverging-existential-extrication-as-of-existential-unthought>–

‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness<sup>2</sup>–of-axiomatic-constructs-and<sup>3</sup>–reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity<sup>4</sup> undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology due to ‘lack of social universal-transparency’<sup>103</sup>–{transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness<sup>104</sup>–of–reference-of-thought as underscoring medieval vices-and-impediments<sup>105</sup> with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of<sup>83</sup>–reference-of-thought. It is only an organic-knowledge sense of
consummation-as-not-behoven to temporal/shortness-of-register-of—meaningfulness-and-

crossgenerational transcendental implications and as reflected from the insight in reflecting

other seminal physics contributors to the theory-of-relativity-together-with-quantum-

Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of—meaningfulness-and-teleology-individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity tendential validation as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness ~in{preconverging-disentailment by}~postconverging-entailment of accreting-
substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising —referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific
and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual-patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency—sublimating-nascence,—disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking deference to the prescience of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging—de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness—reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness—reference-of-thought, and so by maximaliing-recomposuring amplituding/formative—epistemicity—totalising—renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging—de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and
positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation /relative-ontological-incompleteness /preconverging-existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency ⟨transparency-of-totalising-entailing,… as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising~in-relative-ontological-completeness ⟩’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩
on the basis of the prospective relative-ontological-completeness\(^\text{77}\)/ontological-contiguity\(^\text{77}\) of the latter over the prior relative-ontological-incompleteness\(^\text{77}\) of notional-discontiguity/epistemic-discontiguity \(\triangleleft\) between\(\rightarrow\)prior-shallow-supererogation \(-\)of-mentally-aestheticised-preconverging/dementing \(\triangleleft\)qualia-schema \& prospective-profound-supererogation \(-\)of-mentally-aestheticised-postconverging/dialectical-thinking \(\rightarrow\)qualia-schema\(\rightarrow\) of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-\(\rightarrow\)human\(\rightarrow\)amplituding/formative–epistemicity\(\rightarrow\)totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^\text{7}\) but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^\text{1}\) between \(\rightarrow\)presencing—absolutising-identitive-constitutedness\(\rightarrow\) and \(\rightarrow\)nonpresencing-\(\rightarrow\)perspective–ontological-normalcy/postconvergence\(\rightarrow\). Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness\(^\text{77}\) notional-contiguity/epistemic-contiguity\(^\text{77}\) construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic\(^\text{5}\) meaningfulness-and-teleology\(^\text{9}\) grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation \(\rightarrow\)meaningfulness-and-teleology\(^\text{9}\) without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-
consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing-reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later
by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness\(^8\)-of-\(^8\) reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social \(^9\) universal-transparency \(^10\)\,
\{(transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness \(^8\)} such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of \(^8\) de-mentation-\{(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^7\)/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<-as-to-postconverging-or-dialectical-thinking –apriorising-psychologism\} of the consciousness in ontological-contiguity \(^7\)/relative-ontological-completeness \(-\)of- reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<-as-to-preconverging-or-dementing –apriorising-psychologism\} of the consciousness of notional-discontiguity/epistemic-discontiguity \(-\)between—prior-shallow supererogation \(-\)of-mentally-aestheticised–preconverging/dementing \(^8\)–qualia-schema and prospective-profound-supererogation \(-\)of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema\}/relative-ontological-incompleteness\(^8\)-of- reference-of-thought as of \(^8\) maximalising-recomposuring-for-relative-ontological-completeness\(^7\)—unenframed-conceptualisation, and not \(^5\)incrementalism-in-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening\textsuperscript{52}; overriding the idea that the perspective/framing/reference/horizon/projection of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology\textsuperscript{99} should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{24} as of prospective relative-ontological-completeness—of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as of nonpresencing—<perspective–ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness\textsuperscript{88} and prospective relative-ontological-completeness\textsuperscript{87}, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the-very-same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of nonpresencing.<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing.<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of causality—as-to-projective-totalitative-implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity validation that is at the very center of the ‘promise of correspondence between human—
subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence\{implicated-nondescript/ignorable–void  ’-as-to-presencing—absolutising-identitive-constitutedness \} of any given <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag  ‘from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{23} posture; such that humankind then overlooks  ‘presencing—absolutising-identitive-constitutedness\textsuperscript{14} and re-projects/re-anticipates  ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity\textsuperscript{77} as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\textsuperscript{57} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity\textsuperscript{57} as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the ‘meaningfulness-and-teleology\textsuperscript{99} implications to the so-renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity\textsuperscript{57}-signification within such renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity\textsuperscript{57} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing ‘meaningfulness-and-teleology\textsuperscript{99} as an epistemic-totalising /circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{57} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
mentation-capacity as of growing certitude from the opening up of "nonpresencing-

knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}—constitutedness—in–preconverging-entailment with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay² with respect to our³ procrypticism–or–disjointedness-as-of–reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism⁴ meaningfulness-and-teleology⁵ in scholasticism–mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal/unenframing–or–metaphysics-of-absence{implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>}–or–transcendental-reasoning-of-event–as–prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism “meaningfulness-and-teleology”⁶ we entertain today. Likewise, as of such metaphoricity episteme, the “meaningfulness-and-teleology”⁷ herein implied as of its essence cannot do without this epistemic-totalising⁸.

entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-
substitutive-subsumption-as-futural-difference-freeplay. This author conceives that at the very
core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality<for-sublimating–existential-
eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to
determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’

cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/’throw-up’/’reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t
engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of

with “meaningfulness-and-teleology”, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness—of reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory~de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency—{(transparency-of-totalising-entailing,<as-to-entailing—(<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness)}) with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients
are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language–〈imbued–averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of–’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications〉’uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity criticisms is much
more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}

subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. It is herein summated that as of metaphysics-of-absence

(implicated-epistemic-veracity-of-nonpresencing<-perspective-ontological-normalcy/postconvergence>) prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a...
as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-<perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of
medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness—of—a reference—of—thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as—there—is—nothing—outside—the—text, all construed by this author as of attendant—ontological—contiguity—educed—existentialising/contextualising/textualising—contiguity; is the enabling approach for human ontological-reconstituting—as—to—confledness as of aetiolisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality—of—sublimating (<amplituding/formative—supererogatory—de—mentativeness/epistemic—growth—or—confledness /transvaluative—rationalising/transepistemicity/anamnestic—residuality/spirit—drivenness—equalisation) of our supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibility—setup/measuring—instrument—for—conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative—ontological—completeness. This is in reality the ultimate scientific insight as such an internal—dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging—dementating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded—on— and—constrained—by—ontological—veridical—intrinsic—reality as of <amplituding/formative—epistemicity>causality—as—to—
projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity', but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology magnitude and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness)’ as of a cynicism of institutional-being-and-craft. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by deneuterising —referentialism, which is equinominal/equivalent to nonpresencing-<perspective–ontological-normalcy/postconvergence>. In other words the historical implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought- devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. reason for the ontologically defective <amplituding/formative–epistemicity>totalising–self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-
worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the
‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory–de-mentativity)’ in their conventioning, and thus to the
exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-

meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-

as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-
thought to be transcended/superseded with human limited-mentation-capacity-deepening

Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as ‘candored and straight’ with respect to ‘meaningfulness-and-teleology’ whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding ‘meaningfulness-and-teleology’. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence}{implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness}) and goes on articulating ‘meaningfulness-and-teleology’ even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating ‘meaningfulness-and-teleology’ from the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. Equally we can imagine that making a positivistic argument in the midst of a non-
positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental
orientation will be geared to their traditional sense of meaning and living as absolutely defining,
but then the ‘center’ had moved from their world (from non-positivistic as base-
institutionalisation/animistic or medieval preconverging-or-dementing\textsuperscript{20}–apriorising-
psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{21}–
apriorising-psychologism center). Likewise such a suprastructural articulation of our
positivism–procrypticism relationship to its postlogism\textsuperscript{77} that includes psychopathy and social
psychopathy will apparently not make any sense to our present but then ontologically our
present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-
supererogation, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing—apriorising-psychologism as well. However, to the extent that it is ‘not such amplituding/formative-epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—temporal/shortness-of-register-of-meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation—ununiversalisation to universalisation—non-positivism/medievalism to positivism—procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of-meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality—amplituding/formative-epistemicity—eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective amplituding/formative-epistemicity causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated—temporal-intemporality and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-
register-of-‘meaningfulness-and-teleology’ distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of-‘meaningfulness-and-teleology’ projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and transcendental-enabling/sublimating/supererogatory-de-mentativity associated with intemporality /longness and institutionalisation/intemporalisation as of its very defining core is rather one of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing.–for-explicating-ontological-contiguity as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing.–for-explicating-ontological-contiguity is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical ‘meaningfulness-and-teleology’ is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting or totalising-entailing–reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming ‘meaningfulness-and-teleology’ the <cumulating/recomposuring–attendant-ontological-contiguity >succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection);
given that with corresponding shallow to limited-mentation-capacity-deepening\(^1\), as institutionalising \(<\text{amplituding}/\text{formative–epistemicity}>\text{causality} \sim \text{as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity}\) successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\(^9\) ~ sublimating–nascence,–disclosed–from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as \(<\text{amplituding}/\text{formative–epistemicity}>\text{causality} \sim \text{as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity}\) of ‘meaningfulness-and-teleology\(^9\) going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening ’ implies more and more profound reconstruals/reconceptualisations (\(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–renewing–realisation/re-perception/re-thought}\) inducing transformative implications with respect to ‘meaningfulness-and-teleology\(^9\) as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—epistemic–totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting–as-to-possibilities-of-self-becoming-as-of–‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-
enabling/sublimating/supererogatory—de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory—de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory—de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of ‘meaningfulness-and-teleology’ as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-verdicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-verifydicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity—relativism-determinism, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the
transcendental-enabling/sublimating/supererogatory—de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology©–<in-preconverging-existential-extrication-as-of-existential-unthought>6 to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as secondnaturing institutionalisation percolation-channelling–<in-deferential-formalisation-transference> to elicit the necessary positive-opportunism—of-social-functioning-and-accordance75 for prospective institutionalisation as skewing (‘intemporality©—asymmetric-subsumption-of-temporality©’), for relative intrinsic-reality/ontological-veridicality transcendental-
worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the notional-deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the
(beyond-the-consciousness-awareness-teleology
<br>of-existential-unthought>) weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suprerogatory-de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate causality~as-to-projective-totalitative-implications-of-prospective nonpresencing, for-explicating ontological-contiguity with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of—meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional—deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal
while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>. [The notion of ‘beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>’, as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-attendant-intradimensional>-prospectively-disontologising-preconverging/dementing –apriorising-psychologism by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-attendant-intradimensional>-prospectively-disontologising-preconverging/dementing –apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as
knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology\textsuperscript{-}\textsuperscript{<in-preconverging-existential-extrication-as-of-existent}\textsuperscript{\textsuperscript{-unthought}}. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness \textsuperscript{-of-} reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology\textsuperscript{-}\textsuperscript{<in-preconverging-existential-extrication-as-of-existential-unthought>\textsuperscript{\textsuperscript{}} as when eliciting ignorance (as of ‘lack of constraining social universal-transparency)}\textsuperscript{-}\textsuperscript{\textsuperscript{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}} of the psychopath’s mental-disposition of postlogism \textsuperscript{-as-of-} compelling–nonconviction/madeupness/bottomlining\{\textsuperscript{\textsuperscript{\textsuperscript{\textsuperscript{[‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–inden-disontologising’–of-the–\textsuperscript{\textsuperscript{\textsuperscript{\textsuperscript{\textsuperscript{‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;–in-shallow-supererogation–as-to-disontologising-perverted–outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness>\textsuperscript{}}}]]}}]}}, and while construed as beyond-the-

Ultimately, going by the very decisiveness of relative-ontological-incompleteness\(^8\)-of-reference-of-thought, as it leads to ‘lack of constraining social\(^{103}\)universal-transparency\(^{104}\)-\{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\}\), associated with the successive uninstitutionalised-threshold\(^{102}\) states, the notion of ‘human beyond-the-consciousness-awareness-teleology\(^9\)-<in-preconverging-existential-extrication-as-of-existential-unthought>’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments\(^{105}\) as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{107}\)-defect-<as-Being-or-ontological-or-existential–defect>\(^{85}\) inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments\(^{105}\) as of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s\(^{83}\) reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{102}\)-defect-<as-Being-or-ontological-or-existential–defect>\(^{85}\) as beyond-the-consciousness-awareness-teleology\(^9\)-<in-preconverging-existential-extrication-as-of-existential-unthought> of the registry-worldview/dimension uninstitutionalised-threshold\(^{102}\); as social\(^{103}\)universal-transparency\(^{104}\)-\{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\}\) is a strong inherent deterrent of
human temporality\(^9\)/shortness and enabler of human intemporal longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold\(^0\) of such knowledge-as-virtue arises the temporal-dispositions denaturing its reference-of-thought\(^8\)/categorical-imperatives/axioms/registry-teleology\(^9\) for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. This nature of ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^0\)–defect-as-Being-or-ontological-or-existential–defect\(^85\)” as induced beyond-the-consciousness-awareness-teleology\(^9\)–in-preconverging-existential-extrication-as-of-existential-unthought> as of registry-worldview/dimension uninstitutionalised-threshold\(^0\) explains why fundamentally issues of reference-of-thought defect or perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> point more decisively/fundamentally as to their resolution as aetiologistion/ontological-escalation towards the need for ontological-completeness-of-reference-of-thought as to the <cumulating/recomposing–attendant-ontological-contiguity >-successive registry-worldviews/dimensions institutionalisations-in-superseding-their-corresponding-uninstitutionalisation with regards to base-institutionalisation-superseding-recurrent-utter-uninstitutionalisation, universalisation-superseding-ununiversalisation, positivism-superseding-non-positivism/medievalism and prospectively deprocrypticism-superseding-procrypticism. Thus preconverging/postconverging–de-mentatively/structurally/paradigmatically, this is the supratransversality<in-sublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing associated with intemporal longness and construed as ‘intemporal-asymmetric-subsumption-of-temporality” since it is ‘not equable’ with the relative shallowness as temporal/shortness-of-register-of–meaningfulness-and-teleology in intradimensional construal of meaningfulness-and-teleology but projects directly in grasping fundamentally
the issue of relative-ontological-incompleteness\textsuperscript{88} reference-of-thought and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/preconverging/postconverging–de-mentatively/structurally/paradigmatically as of aetiologisation/ontological-escalation a question of their relative-ontological-incompleteness\textsuperscript{88} reference-of-thought as it endemises/enculturates such notions as its vices-and-impediments\textsuperscript{85} and the same approach applies to our state of positivism–procrypticism involving procrypticism–or–disjointedness-as-of\textsuperscript{83} reference-of-thought-as-misappropriated– meaningfullness-and-teleology\textsuperscript{79} as it endemises/enculturates perversion-of\textsuperscript{71} reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of positivistic meaningfulness as vices-and-impediments\textsuperscript{85} requiring its preemption by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfullness-and-teleology as of prospective notional–deprocrypticism institutionalisation.]

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued- postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation)\textsuperscript{60} transcendental notions of intemporality\textsuperscript{52}/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, the mechanism of transcendence-and-
sublimity/sublation/supererogatory-de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimate/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance
until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimomy displayed by succeeding institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-⟨perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩, which may wrongly imply being out of the scope of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—⟨so-construed-as-from-perspective-ontological-normalcy/postconvergence⟩’—existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the mechanism by which re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—⟨imbued-postconverging/dialectical-thinking—‘projective-insights’/‘epistemic-projection-in-conflatedness—of-notional—deprocrypticism-prospective-sublimation⟩ transcendental ideas (transcendental in terms—as-of-axiomatic-construct of putting in question the prior reference-of-thought—devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology—⟨in-preconverging-existential-extrication-as-of-existential-unthought⟩, is coming from a point

had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-

This equally explains why in all epochs, however different the nature, there is an inherent
temporal mental-disposition abhorrence of transcendental ideas as putting into question the
present and present interests (for instance, even the industrial revolution when considered as
actually generating material wealth was poorly perceived by many trade guilds). It is only the

Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing—in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency<transparency-of-totalising-entailing–as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} of
psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’
(‘meaningfulness-and-teleology’), A appropriately uses a correct
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements (appropriateness-of-‘reference-of-thought-as-of-conflatedness’) and find out
that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve
the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void
logically re-engaging with A with respect to other sums in terms of
aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and
understands the addition principle well. This instance of A’s reference-of-thought where it is
not perverted (correct
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for
addition calculations is part and parcel (whether successful or not) of prelogism. Now
supposed B is in a position and has the mental-disposition to covertly add 1 to any of the
numbers measured and to be involved in the calculations to be undertaken before then
calculating and so as to measurement (so-construed as use of a defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements speaking of B’s perversion-of- reference-of-thought—as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation) such that its calculations as
aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-
measurements (‘meaningfulness-and-teleology’) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential—defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B.
In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality

\textsuperscript{supercerogatory–de-mentativity} of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F it should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant\textsuperscript{93} to them wherein lack of ‘social \textsuperscript{universal-transparency}\textsuperscript{103}-(transparency-of-totalising-entailing-,as-to-entailing-

It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘amplituding/formative–epistemicity totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling (by-a-renewing-of-apriorising/axiomatising/referencing–

capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-
ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity—
deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconcel-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconcel-the-very-ontologically-same-existential-reality’ existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the
Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ALCHEMY/es/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/SUPEREROGATORY-de-mentativity). But then it is more the case that from an amplituding/formative–epistemicity totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension of reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/SUPEREROGATORY-de-mentativity is rather a beyond-the-consciousness-awareness-teleology of in-preconverging-existential-extrication-as-of-existential-unthught notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/SUPEREROGATORY-de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/SUPEREROGATORY-de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/SUPEREROGATORY-de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human amplituding/formative–epistemicity totalising–purview-of-construal’ as superseding–oneness-of-ontology as an all-encompassing amplituding/formative–epistemicity totalising–renewing–realisation/re-perception/re-thought of human psychical and institutionalisation disposition for
at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-enabling/sublimating/supererogatory–de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory–de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly
operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining transcendental-enabling/sublimating/supererogatory—de-mentativity for new prospective relative-ontological-completeness—of—reference-of-thought and so-reflected as to the de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) undergirding the ontological-contiguity—of—the-human-institutionalisation-process. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the existentialising/contextualising/textualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity, as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated herein. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psyche as ‘<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling—(by—a—renewing-of—apriorising/axiomatising/referencing—psychologism—as—the—new—referencing—basis—of—
prospective–meaningfulness-and-teleology of positivistic physics right back then in their epoch such that the overall underlying principle of amplituding/formative-epistemicity-causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity amplituding/formative-epistemicity-causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument relationship to amplituding/formative-epistemicity-causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was preconverging/postconverging–de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity, and instinctively one may argue that it is
by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual-patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity construction having to do with an

Consider in this case the human condition of transience of reference-of-thought as experienced by Okonkwo returning from banishment to Umuofia village in Chinua Achebe’s Things Fall Apart. That is, basically and by reflex, mental-dispositions as of the formation of recurrent-utter-uninstitutionalisation—non-rules—apriorising/axiomatising/referencing—psychologism, as-impulsive-or-accidented-or-random-mental-disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology will not necessarily construe transitorily at its uninstitutionalised-threshold that base-institutionalisation—ununiversalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism reference-of-thought—categorical-imperatives/axioms/registry-teleology is the relative ontologically-veridical reference-of-thought (as explained further below with respect to symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’ associated with distinctive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing> and ‘intemporality-asymmetric-subsumption-of-temporality’/ontological-asymmetrisation as of deconstruction/ontological-reconstituting—as-to-conflatedness in aetiologisation/ontological-escalation); such that on a logical-basis/logic—as-derived-from—transversality<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—motif—and-apriorising/axiomatising/referencing’ the <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}> in recurrent-utter-uninstitutionalisation will be more inclined to turn towards the ‘prior conventional non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-

This equally explains why the implied supratransversality\(-\langle\)in-sublimating–existential-eventuating/denouement\⟩-\]of- motif-and-apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness\(^4\) consummated/forfeiting posture’ of intemporal\(^5\)-asymmetric-subsumption-of-temporality\(^9\)/ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology\(^9\) beyond-the-consciousness-awareness-teleology\(^9\)-\langle\)in-preconverging-existential-extrication-as-of-existential-unthought\⟩\'; such that, preconverging/postconverging–de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology’\(-\langle\)in-preconverging–existential-extrication-as-of-existential-unthought\⟩\’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s\(^7\) reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold\(^{102}\), the notion
of intemporality\textsuperscript{11}/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought\textsuperscript{8}/categorical-imperatives/axioms/registry-teleology\textsuperscript{9} inclined beyond-the-consciousness-awareness-teleology\textsuperscript{7}/ontological-asymmetrisation as of existential-unthought to uphold meaningfulness-and-teleology\textsuperscript{9} as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness\textsuperscript{7}/reference-of-thought will certainly grasp the pertinence of intemporality\textsuperscript{7}/asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting—as-to-conflatedness\textsuperscript{3} aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness\textsuperscript{7}/reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing—psychologism of transcendentally-enabling-level-of-ontological-good-faith—or-authenticity/objectification/desubjectification-as-objectification—ontological-faith—ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism\textsuperscript{100} meaningfulness-and-teleology\textsuperscript{9} construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness\textsuperscript{8}/reference-of-thought as beyond-the-consciousness-awareness-teleology\textsuperscript{7}/ontological-asymmetrisation as of existential-unthought they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency\textsuperscript{10}—

Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as notional–deprocriptivism institutionalisation implied suprastructuration over our positivism–procriptivism is rather not a beyond-the-consciousness-awareness-teleology ⟨in-preconverging-existential-extrication-as-of-existential-unthought⟩ notion as of the present wooden-language⟨imbuéd—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ mental-disposition and mental-projection. notion is the more decisive/salient notion as to human ‘objectively construed/analysed virtuous-

This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology—in-preconverging–existential-extrication-as-of-existential-unthought as of human limited-mentation-capacity-deepening in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation–of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting that then ‘invents/creates’ the

ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} has to do with human limited-mentation-capacity-deepening\textsuperscript{73} inducing successive recomposuring from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity construed as diminishing—human-epistemic-abnormalcy-or-preconvergence\textsuperscript{83} towards ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. That is existence is existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression, such that it inherently implies the ontological-contiguity—of-the-human-institutionalisation-process which can be construed as deprocrypticism-as-of-its-mimetic-echoness/deprocrypticism-in-

Such perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/mental-devising-representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation—apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another
as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of
thinking’ and even less to the gravity that the psychopath does. One other major flaw in the
perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a
flawed notion. To lie is to be in prelogism\textsuperscript{78}\textsuperscript{-as-of-conviction,}-in-profound-supererogation\textsuperscript{96}\textsuperscript{-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at} (‘poor or bad

thinking –apriorising-psychologism and hence the disposition for extrinsic-attribute by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribute associated with transcendental-enabling/sublimating/supererogatory–de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism\(^1\) and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\(^2\). More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism\(^2\)-as-of–compulsing–nonconviction/madeupness/bottomlining\(^\circ\)\<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity >;>-in-shallow-supererogation -<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>\) and the notion of a lie which is in manifest prelogism -as-of-conviction, in profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation\(^9\) –of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’)) as with a lie the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-
supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’–of-the-attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;–in-shallow-supererogation–<as-to-disontologising-perverted-outcome-sought-precedes-existentially-verified–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness>)} with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an

explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting
doesn’t have a ‘coherent whole of narratives’ with respect to attendant–ontological-contiguity\(^7\)~educed–existentialising/contextualising/textualising-contiguity\(^40\)~reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of~ reference-of-thought-devolving-as-of-instantiative-context\(^67\) as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to attendant–ontological-contiguity\(^7\)~educed–existentialising/contextualising/textualising-contiguity\(^40\)~reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of~ reference-of-thought-devolving-as-of-instantiative-context\(^67\) is wrongly implied about slanting, it has to do with prelogism\(^7\)~as-of-conviction,-in-profound-supererogation ~existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’ ~logical-dueness-precedes-disontologising-logical-outcome-arrived-at\(^78\) mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of attendant–ontological-contiguity\(^7\)~educed–existentialising/contextualising/textualising-contiguity\(^40\)~reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of~ reference-of-thought-devolving-as-of-instantiative-context\(^67\)’, and this is the mechanism that induces conjugated-postlogism /preconverging-or-dementing ~integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation ~of~ ‘attendant-intradimensional’~postconverging/dialectical-thinking ~apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism ~as-of-conviction,-in-profound-supererogation ~existentially-veridical–‘attendant-intradimensional’~

Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implication–supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/preconverging-or-dementing–apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity reference-of-thought. the personality development of the childhood psychopathy into an adult psychopath is
experienced closely, and the adulthood psychopath mentation processes structure can be
retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of attendant–ontological-contiguity–educted–existentialising/contextualising/textualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism dispositions in attendant–ontological-contiguity–educted–existentialising/contextualising/textualising-contiguity, however bad-or-poor their ontological-performance–<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism manifestation of the interlocutor by compelling–nonconviction/madeupness/bottomlining–(<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising–of–the-

complex when this is implied prospectively to imply our uninstitutionalised-threshold as procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’) behind the cumulative recomposing-attendant-ontological-contiguity-successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation-ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness of reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant–
ontological-contiguity\textsuperscript{7}–educated–existentialising/contextualising/textualising-contiguity as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview\textsuperscript{8} reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset\textsuperscript{7} reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening\textsuperscript{5}) a renewing of mindset\textsuperscript{7} reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional–deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s reference-of-thought psychologism up to its own registry-worldview’s/dimension’s reference-of-thought psychologism as of its more profound attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity as reifying-or-elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiative-context as ontologically-veridical.

nonpresencing–<perspective–ontological-normalcy/postconvergence>}

points out that ontological analysis should rather be from the prospectively implied ‘human registry-
worldview’s/dimension’s institutionalisation mental-disposition’, and in this instance implying
an ontological analysis of psychopathy and social psychopathy from futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-
positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect–<as-Being-or-ontological-or-existential–defect>’, so construed in order to supersedes its preconverging–de-mentating/structuring/paradigming vices-and-impediments. Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence–{implicated-epistemic-veracity-of- nonpresencing–perspective–ontological-normalcy/postconvergence} ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness
go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by 

\( \text{amplituding/formative–epistemicity} \times \text{causality} \times \text{as-to-projective-totalitative–implications-of–prospective–nonpresencing,–for-explicating-ontological-contiguity} \) that has accompanied human limited-mentation-capacity-deepening \^\text{meaningfulness-and-teleology} \)\^’. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening \^\text{threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation} \) that actually is behind all
attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \[\text{apriorising-psychologism}\] of the cumulating/recomposuring–attendant-ontological-contiguity-successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of preconverging/postconverging–de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence-{implicated-'nondescript/ignorable–void ’'-as-to- presencing—absolutising-identitive-constitutedness } and metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold 02 mental-disposition’, as powerful conceptualisations for framing
issues in their appropriate psychology however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic
mindset reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipating institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notion—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation building up from the prior ones as of their respective elucidation-of attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought devolving-as-of-instantiative-context> (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing—psychologism, as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding—as-of-apriorising/axiomatising/referencing—rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism, {as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument} required for base-institutionalisation—ununiversalisation, ununiversalisation failing/not-upholding—as-of-apriorising/axiomatising/referencing universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism, {as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument} required for
incapable of construing a prospective registry-worldview reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence-implicated-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that preconverging/postconverging–de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-
teleology\(^9\) disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—\(\text{as-of—}\) social stake contention-or-confliction, explaining why uninstitutionalised-threshold\(^1\) are bound to arise successively in the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^\circ\) (out-of-human temporality\(^5\)) together with corresponding prospective institutionalisations (out of-human intemporality\(^5\)) with the latter enabling <amplituding-formative—epistemicity> totalising—renewing—realisation/re-perception/re-thought of defined social-functioning-and-accordance—\(\text{as-of—}\) social stake contention-or-confliction as of the notional-contiguity/epistemic-contiguity \(<\text{profound-supererogation \text{—of—mentally—}}\text{estheticis—postconverging/dialectical—thinking —qualia—schema}>\) in reflecting holographically—<conjungatively—transfusively> the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing—{of—attendant—ontological—contiguity ~educed—existentialising/contextualising/textualising—contiguity }—conflatedness —in—{preconverging—disentailment—by—} postconverging—entailment with no conventioning complexes’! (As a reminder, the notion of intemporality\(^7\)/temporality\(^9\) is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-
involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superoxeratory~de-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘ predilection of the inquirer’.

This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological–

ontological-preservation (rather than a naïve operation of logic as is further highlighted below).

The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought) given our relative-ontological-incompleteness of reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–dementating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology} of all human institutions, and particularly where social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-
moment-expressing-the-most-profound-conviction-as-to-profound-supererogation at-the-
other-moment in a circular reference-of-thought. This tendency is further exacerbated with the
extrication-as-of-existential-unthought> de-convergence as of transversality <for-sublimating–
existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–'motif–
and-apriorising/axiomatising/referencing’. Such a distinction particular at the
uninstitutionalised-threshold 02 is required because it then implies ontologically the relegation
of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the
imperatives/axioms/registry-teleology 09 in the first place to establish or not perversion-and–
apriorising/axiomatising/referencing–in-nonconviction/madeupness/bottomlining–as-to-shallow–
supererogation 2. This delineation is in line with the idea of human temporal (shortness-of–
register–of–‘meaningfulness–and–teleology’) to intemporal (longness-of-register–of–
meaningfulness–and–teleology”) individuations nature as implicitly recognised in the
preconverging/postconverging–de–mentating/structuring/paradigming of formal constructs like
the law, formal institutions, etc. It equally falls in line with the idea of knowledge–
otionalisation on the basis that it is equally critical to understand the possibility of the
ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold,
advance and skew for the latter. The point being that ‘meaningfulness–and–teleology’
construal should supersede just a naïve unilateral construing of interlocution mainly on the
<existentially–veridical–‘attendant–intradimensional–apriorising/axiomatising/referencing’>

disontologising–preconverging/dementing –apriorising–psychologism> mental-dispositions,
point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency \( \langle \text{transparency-of-totalising-entailing, as-to-entailing, amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} \rangle \).

Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \( \langle \text{as-to-attendant-inradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism} \rangle \)) with regards to reference-of-thought–prelogism as-of-conviction, in-profound-supererogation \( \langle \text{existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at} \rangle \). This will explain why the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \( \langle \text{as-to–’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism} \rangle \) within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension ‘meaningfulness-and-teleology’, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency \( \langle \text{transparency-of-totalising-entailing, as-to-entailing, amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} \rangle \) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness \( \langle \text{reference-of-thought} \rangle \) reference-of-thought. This imbued potency in social universal-transparency \( \langle \text{transparency-of-totalising-entailing, as-to-entailing, amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} \rangle \) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The reason for this is that the entire
construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed ‘reference-of-thought–prelogism’-as-of-conviction, in profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> to meaningfulness-and-teleology’ as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism—as-of—compulsing–nonconviction/madeupness/bottomlining<(decontextualising/deexistentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-contextualising/existentialising–attendant-ontological-contiguity >;in-shallow-supererogation <as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> mindset threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism> arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social universal-transparency {transparency-of-totalising-entailing, as-to-entailing-amplitude/formation–epistemicity>totalising-in-relative-ontological-completeness} such that it can induce threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism> rule) as of marginal
social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness reference-of-thought as social procrypticism—or—disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism derived threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation “<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism”, and so overall, on the flawed mental-reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation “<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism” is supposedly reference-of-thought–prelogism–as-of-conviction,–in-profound-supererogation “<existentially-veridical–‘attendant-intradimensional apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at” (as to the lack of constraining social universal-transparency (transparency-of-totalising-entailing–as-to-entailing “<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ”). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation “<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism” doesn’t socially take hold then, as such childhood postlogism perversion-of- reference-of-thought “<as-preconvergingly–

So the transcendental\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99} implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{99} going by its prospective relative-ontological-completeness\textsuperscript{87}-of\ reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99}’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99} in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness\textsuperscript{80}-of\ reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{87}-of\ reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology\textsuperscript{99} which is now antipodal to his, hence his confliction with his circular-pervasiveness<amplituding/formative> wooden-language\textsuperscript{ }\{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology -as-of

when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language-{imbued—averaging-of-thought—amplituding/formative} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sUBLIMITY/sublimation/supererogatory/de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold, including our own as positivism—procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more

Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather preconverging/postconverging–de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/ reference-of-thought meaningfulness-and-teleology
threshold as of its ontologising-deficiency/relative-ontological-incompleteness of reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions for meaningfulness-and-teleology’), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as 10 universalisation–positivism), ‘airplane-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as positivism–procrypticism) and ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism), rather as successive mental-states/ reference-of-thought unbeknown-to-each other in ‘circular-pervasiveness closed-structure of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring-
purpose—of-obtained-measurements’. We know that having never experienced ‘hill-level-
height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (base-institutionalisation–ununiversalisation) the ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (recurrent-utter-uninstitutionalisation) will hardly countenance operating
the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights of the former as more ontologically profound, given its ‘circular-
pervasiveness closed-structure
of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring-
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty
is that ‘no given
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and
by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of "de-mentation") (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing–apriorising-psychologism as of distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God-of-plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed notional-deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as
preconverging-or-dementing—apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing—apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing—apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing—apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought perspective as in disjointedness-as-of—reference-of-thought and rather in distractive-alignment-to—reference-of-thought—of—apriorising/axiomatising/referencing! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of—meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-completeness—of—reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness—of—reference-of-thought/ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly
direct notional-deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of our positivism-procripticism as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology) just as a notional-deprocrypticism analysis will not engage us on the basis of our procripticism—or-disjointedness-as-of-reference-of-thought for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness—reference-of-thought of non-positivism and procripticism—or-disjointedness-as-of-reference-of-thought. But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness—reference-of-thought over prior relative-ontological-incompleteness—reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic ‘meaningfulness-and-teleology’; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating—
indigenising-pidginising transitioning settings and their social constructions as of
amplituding/formative-epistemicity>totalising-self-referencing-syncretising’ prior to eventual
prospective relative-ontological-completeness\textsuperscript{7}\textsuperscript{-of-}\textsuperscript{7} reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a
notional-deprocrypticism construal herein may elicit a misconstrual from a positivistic
perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–
procrypticism uninstitutionalisation as ‘procrypticism–or–disjointedness-as-of- reference-of-
thought\textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9} failing/not-
upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-
or-dementing\textsuperscript{10}–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology\textsuperscript{11} in positivism–procrypticism terms–as-of-
axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-
reference-of-thought. (More like a non-positivistic mindset\textsuperscript{12} reference-of-thought insisting to
contendingly engage a positivistic mindset\textsuperscript{13} reference-of-thought but failing to grasp the
implications as of circular-pervasiveness of being of non-positivistic of \textsuperscript{14} reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{7}\textsuperscript{-of-}\textsuperscript{7} reference-of-thought. Such insight

universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived- perversion-of- reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— rather render such notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology } failing/not-upholding intemporal-preservation-entropy-or-contiguity—or–ontological-preservation; thus transforming such ‘denaturing’ notions of forgiveness/overlooking/resetting into a temporal mental-disposition <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity ‘misconstrued vicious insight disposition’ thus rather endemising/enculturating vices-and-impediments ! effectively means perpetuating the endemising/enculturation of the given uninstitutionalised-

at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such
transcending enabled by the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-

perversion-and-derived—perversion-of—reference-of-thought–<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation> is rather vague, as the more fundamental issue here is that human
meaningfulness-and-teleology\textsuperscript{99} as of human limited-mentation-capacity for construing virtue-
as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever
preconverging/postconverging-de-mentatively/structurally/paradigmatically in need for
prospective relative-ontological-completeness\textsuperscript{87} -of- \textsuperscript{83} reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for \textsuperscript{102} universalisation, the \textsuperscript{102} universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening\textsuperscript{13} enabled by \textsuperscript{81} reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{79}, -for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\textsuperscript{99} of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by \textsuperscript{8} de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no preconverging/postconverging–de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\textsuperscript{88} -of- \textsuperscript{83} reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68} as human limited-mentation-capacity-deepening\textsuperscript{23} retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-\textsuperscript{74} perversion-of-\textsuperscript{81} reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative-epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34}
with their implications when considered at a more profound level turning out to be rather vague
and at best palliative since these are not construed preconverging/postconverging–de-
mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in
reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-
the-human-institutionalisation-process involving human limited-mentation-capacity-
deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental
state to have a positive psychology when its fundamental preconverging/postconverging–de-
mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—
apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology
construal/conceptualisation? And the same can be asked of us with regards to our positivism–
procrysticism disjointedness-as-of- reference-of-thought. In which case such vague
approaches will simply imply beyond-the-consciousness-awareness-teleology
naïve perpetuation in
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-
impediments with both uninstitutionalised-threshold, thus explaining the fundamental
dilemma of all institutional Establishments in their <amplituding/formative> wooden-language
(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–
meaningfulness-and-teleology -as-of-‘nondescript/ignoreable–void ’-with-regards-to-

veridically implied deconstructively/ontological-reconstitutively by
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics), which implies that ‘any registry-worldview/dimension presence

This insight
explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of preconverging/postconverging-dementative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification—gesturing-<in-prospective_psychologismic~apriorising/ axiomatising/referencing- {of-attendant-ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity _ conflationedness _ in—[preconverging—dissentailment—by]—postconverging—entailment>/<amplituding/formative—epistemicity—causality ~as—to—projective—totalitative—implications—of—prospective—nonpresencing—, for—explicating—ontological—contiguity construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence—{implicit—nondescript/ignorable—void —as—to—presencing—absolutising—identitive—constitutedness } construed as postconverging—or-dialectical-thinking—and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness—or-ontological-good-faith/authenticity—reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence—{implicit—epistemic-veracity—of—nonpresencing—<perspective—ontological—normalcy/postconvergence> } construals/conceptualisations as implied by prospective relative completeness—reference-of-thought which rather construes it as a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness—or-ontological-bad-faith/inauthenticity—reference-of-thought. The ontological implication is that beforehand/axiomatically with
respect to the cross-engagement of a prior relative-ontological-incompleteness\textsuperscript{58} of reference-of-thought and a prospective relative-ontological-completeness\textsuperscript{68} of reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing\textsuperscript{70} -and-decentered-prior-institutionalisation’s\textsuperscript{2} -categorical-imperatives/axioms/registry-teleology\textsuperscript{99} unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought by the latter as a postconverging-or-dialectical-thinking\textsuperscript{21} -and-centered-prospective-institutionalisation’s\textsuperscript{8} -categorical-imperatives/axioms/registry-teleology\textsuperscript{99} soundness-or-ontological-good-faith/authenticity of reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness\textsuperscript{68} of reference-of-thought with respect to its prior relative-ontological-incompleteness\textsuperscript{58} of reference-of-thought. But since we have been habituated as of our existential formation within our <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications>} to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional—deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness\textsuperscript{58} of reference-of-thought construed as disjointedness-as-of reference-of-thought.

does not focus on substantive critiquing/assessment of the arguments made but is rather geared
to imply beforehand that such arguments are impropriety, is actually nothing more than our
falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a
status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to
wrongly imply no such argumentation is admissible. This is often a choice deterrent of
institutional and eruditical Establishments of presence failing to recognise that more profound
human insights arise from Dionysian dispositions and not just a reflex of looking at the
presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the
mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of ‘meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as an amplituding/formative wooden-language—{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable—void '-with-regards-to-prospective-apriorising-implications}> start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional–deprocrypticism prospective relative-ontological-completeness reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing apriorising-psychologism of positivism–procrypticism—meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God-of-plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of

Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness—of—reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of—meaningfulness-and-teleology purpose requires making a ‘temporal charade argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness—of—reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrrogatory—de-mentativity as intemporality—-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of—reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative—epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism—-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-
ontological-incompleteness of reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of de-mentionation (supererogatory-ontological-de-mentionation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness of reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness of reference-of-thought by ‘continuous habituation going by the latter’s amplituding/formative-epistemicity causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity in the long run as superseding the prior beyond-the-consciousness-awareness-teleology in preconverging existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity) in relative-ontological-completeness that will preconverging/postconverging-de-mentatively/structurally/paradigmatically harken back to undermine the postlogism and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness of reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism—or–disjointedness-as-of-reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩ level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more

Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-operant-or-incidenting-predicative-insights’ of positivism—procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness—of—reference-of-thought as of positivism—procrypticism, while the explainer of the situation has factored in notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of—reference-of-thought’—as-misappropriated—meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional—deprocrypticism—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to
preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-\textsuperscript{8} reference-of-thought’-as-misappropriated\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{99} and gives up on positivism–procrypticism \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold \textsuperscript{02} with respect to the childhood psychopathy, a new notional–deprocrypticism\textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} has superseded the prior positivism–procrypticism \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99}, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—prospective_attendant–ontological-contiguity\textsuperscript{7}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{10}. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism \textsuperscript{7}/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism\textsuperscript{7}/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality–\textsuperscript{\{susceptible-to-effecting–\}}}

social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{77} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional-deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99}.

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{77}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to reference-of-thought<of-apriorising/axiomatising/referencing as undermining apriorising/axiomatising/referencing-of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment–by}–postconverging entailment induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of reference-of-thought but which is in effect an ontologically-non-veridical-

The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology\(^5\) lies entirely/exclusively/supersedingly on the reference-of-thought/axiomatic-construct/curve-of-prospective-relative-ontological-completeness of reference-of-thought of the explainer of the situation while the logical-dueness of the visitor’s ‘supposed but rather non-existential/non-ontological reference-of-thought/axiomatic-construct/curve-of-prior-relative-ontological-incompleteness reference-of-thought’ doesn’t even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology is operantly qualified as of ‘distractiveness’/distractive-alignment/dismissal-as-

Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold’\textsuperscript{02} mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of human limited-
mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality\(^1\)/longness (which overall is no more greater than that of humans of previous <cumulating/recomposing–attendant-ontological-contiguity >-successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold\(^2\) mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold \(^2\), which choices when of intemporality -drive solipsistic-choices are \(^5\) maximalising-recomposuring-for-relative-ontological-completeness\(^9\)—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension \(^5\) meaningfulness-and-teleology\(^9\) as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold \(^2\)-facet, so-construed by metaphysics-of-absence\{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normacey/postconvergence>\}. carries institutionalisation and uninstitutionalised-threshold\(^2\) implications with respect to the determination of ontologically-veridical \(^5\) meaningfulness-and-teleology\(^9\) as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Such metaphysics-of-absence\{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normacey/postconvergence>\} considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold \(^2\) implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-

Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic “meaningfulness-and-teleology” (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific “meaningfulness-and-teleology” as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology<<in-preconverging-existential-extrication-as-of-existential-unthought>>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so–being-as-of-existential-reality mental-disposition that conceive of positivistic “meaningfulness–
and-teleology \(^9\) in the uninstitutionalised-threshold \(^0\) social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of <amplituding/formative–epistemicity> causality \(\sim\) as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity \(\sim\) and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality<for-sublimating–existential–eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^\dagger\). In another respect, with regards to scientific meaningfulness-and-teleology\(^9\) and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that
will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal amplituding/formative wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of- meaningfulness-and-teleology -as-of- nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness -of- reference-of-thought increasingly defer domains of ‘meaningfulness-and-teleology’ more and more to formal constructs while increasingly reducing the sphere of the extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to– meaningfulness-and-teleology ) as of its free-for-all nature. The bigger point being that even in our positivism–procrysticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as
with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding
virtue (as of aetiology/ontological-escalation), and not ‘human temporal

are spurious and blurry as with respect to postlogism

as of precedence be about articulating the illuminating insight that ultimately allows for the
attainment of their own deferential-formalisation-transference based on ‘social consensus as of
relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions
and projections’, and undermining a social relations with regards to knowledge and virtue that
is based on ‘social consensus as of social-aggregation-enabling by human temporal

knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogism
phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social
as of the present as metaphysics-of-presence-{implicit ‘nondescript/ignorable–void ‘-as-to-

uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-
absence-{implicit-epistemic-veracity-of—nonpresencing—<perspective—ontological-
normality/postconvergence}>, since the construal of our postlogism
as of psychopathy and
social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-or-
notional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology as of prospective notional--deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence (implicated-epistemic-veracity-of- nonpresencing<perspective–ontological-normalcy/postconvergence>) we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-⟨imbued—averaging-of-thought--as-to-leveling/ressentiment/closed-construct-of--meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging--dementating/structuring/paradigming and not

postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as preconverging/postconverging–de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for notional–deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of the same perpetual temporalities-drives and intemporality-drive (given human-subpotency–

than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an
individual of a positivistic insight found themselves in a non-positivistic community, whether
base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or
so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness\(^9\) of reference-of-thought, by ‘intemporal-prioritisation-of-’ reference-of-thought’–as-conflatedness\(^{1}\)–or-ontological-reprojecting its mental-disposition will be to unleash its ‘maximising-recomposuring-for-relative-ontological-completeness\(^9\)–unenframed-conceptualisation intemporality’-drive to supersede the non-positivistic ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology’\(^{97}\) that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of attendant–ontological-contiguity\(^{95}\)–educed–existentialising/contextualising/textualising-contiguity\(^{40}\) here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness\(^{99}\) and relative-ontological-completeness\(^9\) reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of attendant–ontological-contiguity\(^{95}\)–educed–existentialising/contextualising/textualising-contiguity\(^{40}\)–in-reification/dereification as of their prior relative-ontological-incompleteness\(^9\)–reference-of-thought, contrasted with the positivist naturalist conception of attendant–ontological-
contiguity\textsuperscript{67}~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{67}~in-elucidation-or-reification as-seeking-a-cure as of its prospective relative-ontological-completeness\textsuperscript{67} of reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrysticism registry-worldview/dimension as of its prior relative-ontological-incompleteness\textsuperscript{83} of reference-of-thought, as the notion of proof/evidence is more critically tied down to attendant–ontological-contiguity\textsuperscript{67}~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{67}~reification as of singularisation\textsuperscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing} projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity\textsuperscript{67}~<profound-supererogation\textsuperscript{of-mentally- aestheticised–postconverging/dialectical-thinking –qualia-schema} in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter\textsuperscript{meaningfulness-and-teleology} as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the\textsuperscript{universal} ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the preconverging/postconverging–de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness\textsuperscript{67} of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the

This contortion as of prospective relative-ontological-completeness\textsuperscript{87}reference-of-thought projection is what marks \textquote{transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

The contortion arises because inherently the state of prior relative-ontological-incompleteness \textsuperscript{88}reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness \textsuperscript{87}reference-of-thought but for the induced crossgenerational transcendental metaphoricity\textsuperscript{57}possibility, and the contortion is more of a token as of the metaphoricity\textsuperscript{57}possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity and without which token contortion there is \textquote{no existential reference for such transcendence-and-sublimity/sublimation/supererogatory–dementativity}, as a gesturing of metaphoricity\textsuperscript{57}that is \textquote{beyond the prior relative-ontological-incompleteness\textsuperscript{88}reference-of-thought full \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{99}implications contemplation}. The contortion
implies that there is ‘nothing any more important than upholding the metaphoricity’ possibility for prospective relative-ontological-completeness-of-reference-of-thought; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness-of-reference-of-thought as of postconverging-nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. notional-deprocrypticism is very much alien to our positivism-procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-involved ‘epistemic-totality’/reference-of-thought/epistemic-totalising/self-referencing-syncretising/circularity conception of meaningfulness-and-teleology which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemicity-relativism-determinism implied amplituding/formative-epistemicity/causeality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given
reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>/epistemic-nonimmanence/flawed-epistemicity-relativism-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>projected epistemic-immanence/veridical-epistemicity-relativism-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the preconverging/postconverging—dementative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-

of-prospective nonpresencing, for explicating ontological-contiguity. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility—of—aestheticisation’ of human ‘amplituding/formative—epistemicity>totalising/circumscribing/delineating meaningfulness—telesology’/reference—of—thought—devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging—dialectical-thinking—apriorising—psychologism’ prior institutionalisation as reasoning—from—results/afterthought and very weakly constrained to represent itself as of its preconverging—dementing—apriorising—psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable—void (actually speaking of akrasiatic—drag—denatured—preconverging—dementing—narratives), for the possibility of its prospective transcendence—sublimity/sublimation/supererogatory—de—mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory—de—mentative constraint’ to prospective institutionalisation transcendence—sublimity/sublimation/supererogatory—de—mentativity as of the possibility of prospective relative—ontological—completeness—of—reference—of—thought. Human supererogatory—de—mentative constraint is fundamentally associated with poor
universal-transparency\textsuperscript{102} \{transparency-of-totalising-entailing-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \} with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\textsuperscript{102}. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative> wooden-language\textsuperscript{102} \{imbedded–temporal–mere-form/virtualities/dereification/akrasiatic–
drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–

reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99} that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness\textsuperscript{87}–of–reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the-very-same prior reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{88}, for resolving a given registry-worldview/dimension vices-and-impediments\textsuperscript{105}; this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation\textsuperscript{17} (supererogatory–ontological–de-mentation-or-dialectical–

decontortioning disposition as can be manifested by a falsely striving to elevate the temporal

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness-<sterilising/anecdotalising/trivialising-of-prospective-reontologising_by-preconverging,-in-disontologising-formulaic–dragging-out/hollowing-out> and emotional-involvement. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology|as-‘epistemic-totality’|dereification-in-dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism implied as of dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism that in many ways ignores/overlooks knowledge-reification–gesturing<in-

manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory-de-

between their knowledge productivity implications and existential reality wherein for instance
psychological and psychiatric science seems to imply that all along its practice human
psychological illnesses have multiplied many times over as of ever transforming and expanding
formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed ‘meaningfulness-and-teleology’. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance—with including-virtue-as-ontology> which is what enables the reification of
epistemic-totality of "meaningfulness-and-teleology". This totalising-entailing insight is reflected in the Derridean deconstruction orientation with its obvious narratology implications pertinence to literary studies as of its apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educated-existentialising/contextualising/textualising-contiguity} — conflatedness — in {preconverging-disentailment-by} — postconverging-entailment with attendant-ontological-contiguity ~ educated-existentialising/contextualising/textualising-contiguity in contrast to such a notion like language games when construed rather in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educated-existentialising/contextualising/textualising-contiguity} — constitutedness — in {preconverging-entailment}. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its \(<\text{amplituding/formative—epistemicity}>\text{totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag} \sim \text{presumption};\) which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity} \sim \text{postconverging—de-mentating/structuring/paradigming} \sim \text{as-being-as-of-existential-reality}>\) articulated as
‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existing-reality> in producing knowledge as ‘meaningfulness-and-teleology’; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity>, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically
profound and comprehensive as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising textualising-contiguity }—conflatedness -in-{preconverging-disentailment by}–postconverging-entailment than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising textualising-contiguity }—conflatedness -in-{preconverging-disentailment by}–postconverging-entailment demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of <amplituding/formative–epistemicity>totalising~devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the-very-same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity’/ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⟨imbued-and-{hermeneutically/textually/reprojectively/supererogatingly/zeroingly/re-acutingly}educing-‘herein-specifically-relevant-human-subpotency’–epistemic-perspective-of-

Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity as to existence-potency~/~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-
congruence with attendant-ontological-contiguity as of apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}~conflatedness in {preconverging-disentailment by} postconverging-entailment; so-implied as of their supposedly coherent ontological-commitment ~implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> reflected by <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoricisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite
often theorisation in many a social domain-of-study strives on disparateness, rather than a

lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confatedness in {preconverging-disentailment by}–postconverging entailment that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance –

In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and epistemic-totalising\textsuperscript{33}–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting analytical insight actually converges with the epochal philosophical implications of attendant–ontological-contiguity\textsuperscript{67}–educted–existentialising/contextualising/textualising-contiguity\textsuperscript{40} in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity\textsuperscript{67}}–conflatedness\textsuperscript{42}–in {preconverging–disentailment–by}–postconverging-entailment and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but preconverging/postconverging–de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability\textsuperscript{12} and validation in determining ontological-veracity as of a critical exercise of \textit{amplituding/formative–epistemicity}–totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity–of-superseding–oneness–of-ontology–implied–as–of–inherent–existence–coherence/contiguity–and-so–construed–as–the–enabler–of–insight–or–intuition–or–foresight–as–of–embodied–consciousness’. In this regards, such epistemic-totalising\textsuperscript{33}–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the preconverging/postconverging–de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel\textsuperscript{103}–universalising-idealisation that ‘runs-through/is-
deflating’ by its eventual -instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning ⟨as-devoid-of-attendant–ontological-contiguity –educated–existentialising/contextualising/textualising-contiguity ’s–reifying-or-elucidating-of—presencing—ontological-eventfulness ⟩ as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed
populist democracy. Paradoxically, this insight validates the point advanced herein that human
meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition, as-reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dimensionality-of-sublimating

contiguity –educed–existentialising/contextualising/textualising-contiguity }= conflatedness –in–{preconverging-disentailment by}–postconverging-entailment> as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory–dementativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-
being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfills its promise of knowledge-reification—gesturing—prospective psychologism—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging-disentailment—by}—postconverging-entailment> for prospective human transcendence-and-sublimity/sublimation/supererogatory—de—mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of ‘meaningfulness-and-teleology’ infrastructure’, something which a ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as of a <amplituding/formative> wooden-language{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as—of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} is not postconvergingly—de—mentated/structured/paradigmed to do! This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘epistemic-totalising–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting reactualising as totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘epistemic-totalising–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting reactualising as totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child

ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for such ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ underlying ‘epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting reactualising as <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human ‘meaningfulness-and-teleology’ aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -{imbued-and-

Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness—\textit{as-‘epistemic-totality’-dereification-in-dissingularisation—}\textit{as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—}\textit{as-flawed-epistemicity-relativism-determinism—}\textit{that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in attendant–ontological-contiguity—\textit{educed–existentialising/contextualising/textualising-contiguity—and then reifies-out conceptualisations as of difference-conflatedness—}\textit{as-to-totalitative-reification-in-singularisation—}\textit{as-veridical-epistemicity-relativism-determinism—}. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very \textit{wooden-language—}{\textit{imbued—averaging-of-thought—}}\textit{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void—’-with-regards-to-prospective-apriorising-implications—}} that is supposed to be reified but now under the sterile/anecdotal imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural
reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology /knowledge as of knowledge-reification–gesturing<in-prospective.psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity } conflationness in {preconverging-disentailment by} postconverging-entailment’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by causality~as-to-projective-totalitative–implications-of-

Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining disposition rather than an orientation towards the ‘transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ or transversal-analysis-towards-validatory-selectivity-for-foregrounding–entailment-{postconverging–narrowing-down–sublimation-as-to-

In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual-patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual-patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual-patterning rather than knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflicatedness—in-{preconverging-disentailment-by}—postconverging-entailment—amplitudes/formative-epistemicity—causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }~conflicatedness~ in {preconverging-dsentailment by} postconverging-entailment of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual-patterning conceptualisations’ going by their cross-analysis as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity~. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the attendant–ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity. reification along the three frames indicated above (as of same scholar interest-of-study, scholars

Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much
naïve conceptual-patterning conception of knowledge; going by their profound association with
earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-

We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. Immanence-function-confalatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness is in preconverging-entailment, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confalatedness is in {preconverging-disentailment by} postconverging-entailment of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-confalatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-confalatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-confalatedness overriding the meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of–reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of–reference-of-thought. In both

over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as preconverging/postconverging–de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness\textsuperscript{89}\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{59} as if of prospective relative-ontological-completeness \textsuperscript{7} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness\textsuperscript{13} equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } constitutedness\textsuperscript{14} in–preconverging–entailment predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{57}–of–reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily
ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuring instrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional–deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuring instrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–dementativity. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness, likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflatedness, universalisation–non-

ontological-contiguity as reflecting existence/intrinsic-reality/ontological-veridicality. Such a
refinement while cognisant of the pertinence of falsifiability and validation is more in line
with the Lakatosian research-programme perspective given the complexity of the social just as
many a complex domain in the natural sciences in effect assume the research-programme
epistemic model; consider that while the natural sciences are generally more amenable to strong
immediate cause-and-effect determination, such complex studies like string theory in physics,
medical research, etc. send to assume in effect the research-programme epistemic model. The
underlying insight here is that many a complex study purview as well as the study of the social
given its poorly constraining immediate cause-and-effect determination, renders knowledge
validation more of a ‘construct of comprehensive-coherence and competitive claim to
ontological pertinence as of extensive research-programme implications’, but this should
however implicitly reflect concurrently the underlying notions of falsifiability -or-deferring-
falsifiability and validation-or-deferring-validation. It is herein contended that it is the
implicated orientation of many post-structuralists thinking as of the research-programme
epistemic model as articulated herein that renders their thought scientifically credible and
pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to
be the dominant scholarly-cited authors in the general humanities, and so precisely because of
the very thorough knowledge-reification–gesturing-in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-

scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a
more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential ramifications. This insight equally informs the supplanting—conviction-as-to-profound-supererogation—of ‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism herein that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further knowledge-reification—gesturing—</in-prospective_psychologismic—apriorising/axiomatising/referencing—of—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—confatedness—in—preconverging—disentailment—by—postconverging—entailment>, as well as of the disposition for advancing overall knowledge-notionalisation level reflecting the ontological-contiguity—of—the-human-institutionalisation-process as to transversality<for—sublating—existential-eventuating/denouement—of—affirmative—and—unaffirmative—disambiguated—motif—and—apriorising/axiomatising/referencing’ in foregrounding—entailment—postconverging—narrowing-down—sublimation—as—to—existence—as—sublimating-withdrawal/unenframing—elicited—from—prospective—profound—supererogation ’—in—reflecting—immanent-ontological-contiguity ’;—as—operative—notional—deprocrypticism) of the ‘preconverging/postconverging—de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublation—educing—epistemic—totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re—acuting—as—to—possibilities-of-self—becoming—as—of—‘existential—interpretation/epistemicity—in—apriorising/axiomatising/referencing—of—existence’ thought, that the ontological-pertinence assumes <amplituding/formative—epistemicity>causality—as—to-projective-totalitative—implications—of—prospective—nonpresencing,—for—explicating—ontological-contiguity unassailability; and so, not for the mere sake of research-programme extensiveness but as of its
naively assume that at uninstitutionalised-threshold\(^{102}\), human existential-investment as of its temporality\(^{7}\)/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity\(^{57}\) beyond wooden-language\(\langle\text{imbued–averaging-of-thought}\rangle\text{–}\text{leveling/ressentiment/closed-construct-of–}\text{meaningfulness-and-teleology}\text{–as-of–}\text{\'nondescript/ignorable–void \'\-with-regards-to-prospective-apriorising-implications\rangle\rangle\text{ socially intelligible \'}\text{meaningfulness-and-teleology}\text{\'}\text{conceptualisation in }\text{<amplituding/formative–epistemicity\text{–}totalising\–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\text{.}\text{Metaphoricity \' as such ironises on social intellectual nihilism as it is bent on undermining any temporality\(^{9}\)/shortness as of ontological-faith-notion-or-ontological-fideism\text{–}\text{imbued-}

Further, while
‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation ‘reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of
our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate knowledge-reification–gesturing—in-prospective psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~duced–existentialising/contextualising/textualising-contiguity }–in–{preeconverging-disentailment by}–postconverging-entailment> as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to
predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal/unenframing-elicited-from-prospective–profound-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming>, and institutionalised, such <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be preconverging/postconverging–de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-

human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity especially, as
of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies
wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the

transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. While today that
notion of contrariety has in many ways sanked in and been accepted with natural science
knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter
is that the possibility of the profound study and emancipation of the social inevitably comes
with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was
what brought about the positivistic mindset today that allowed for modern-day science to
develop and just as well modern-day social science, it is inevitable that a further development
of human knowledge as of its organic knowledge construct warrants a further ‘decentering of
the human subject’ as implied by \textsuperscript{\textsuperscript{18}} deprocrypticism–or–preempting—disjointedness-as-of-
reference-of-thought; and justified by the fact that if previous generations had to undergo their
psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’ relation induced as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-

possibilities as the selecting transcendental-signifier/transcendental-
enabling/sublimating/supererogatory–de-mentativity’ and ‘the ever developing human limited-
mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-
unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional–deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-
ontological-contiguity\(^67\)—of-the-human-institutionalisation-process\(^68\) as of difference-conflatedness\(^11\)-as-to-totalitative-reification-in-singularisation\(^{<\text{as-to-the-nondisjoinedness/entailment-of-prospective- nonpresencing> as-veridical-epistemicity-relativism-determinism implied <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity}\(^{67}\). Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity\(^67\)—of-the-human-institutionalisation-process\(^68\) which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\(^67\) and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\(^67\) and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituding/formative> wooden-language\(\langle\text{imbued—averaging—}\)
epistemic impertinence. Prospective notional–deprocrypticism necessarily implies a further
epistemic-veracity thinning out as of its prospective relative-ontological-completeness as-of-
reference-of-thought associated disseminative epistemic-veracity and so as the
prospective notional–deprocrypticism disseminative epistemic-veracity as of such
disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such
disseminative research-programme coherence and ontological-contiguity equally imply an
underlying falsifiability or-deferred-falsifiability and validation-or-deferred-validation as a

projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-

many a domain-of-study of the social. In this regard, we can appreciate for instance in the
physics and other natural sciences <amplituding/formative–epistemicity> totalising–devolved–
purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin
epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect
determinations that allows for developed singular or near-singular comprehensive explanations
of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with
many a domain-of-study in the social, without necessarily implying this as all-encompassing
but still critically and substantively so, such a spearheading towards the ontologically decisive
is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium
rather than a transversality<for-sublimating–existential-eventuating/denouement>~of-
affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ constraining to the ‘superior party’ that is
existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as preconverging/postconverging—de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity }—conflicatedness—in {preconverging—disentailment-by}—postconverging-entailment totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective—profound-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism—overcoming/unovercoming’>. function-conflatedness\textsuperscript{1} insight, of most critical importance and decisiveness as preconverging/postconverging–de-mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism \textsuperscript{5} of meaningfulness-and-teleology\textsuperscript{9} is the need for a notional–deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to \textsuperscript{6} <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34}, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency\textsuperscript{39}–sublimating–nascence,–disclosed–from-prospective-epistemic-digression absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence\textsuperscript{31},’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of our <amplituding/formative–epistemicity> totalising–thrownness-in-existence\textsuperscript{35}. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence,
and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance-<including-virtue-as-ontology>. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance-<including-virtue-as-ontology> as by its amplituding-formative-epistemicity-totalising-self-referencing-syncetising/circularity/interiorising/akrasiatic-drag-it ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance-<including-virtue-as-ontology> of existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality. It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’ that raises-the-charge-that-and-reflects-the-notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is preconverging/postconverging-de-mentatively/structurally/paradigmatically bound to fail the ontological-performance-<including-virtue-as-ontology> of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of universalisation mental-disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of notional–deprocrypticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-

construal/conceptualisation with respect to prospective relative-ontological-completeness<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-
Thus fundamentally the causality of prospective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a notional-deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self underlying the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) with <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions human-subpotency of reference-of-thought induced recurrently from the instigative causality of prospective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of
‘human-subpotency in its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag', and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical ‘meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity. Thus intemporal ontological-performance of reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is preconverging/postconverging–de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arise as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising~thrownness-in-existence the possibility for
prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic 木质语言 ⟨ imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications ⟩? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance —<including-virtue-as-ontology> as of human 木质语言 epistemicityotalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’ /ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflicatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-

displacement/decentering-of-the-human-subject in its prior relative-ontological-
incompleteness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, and so as of epistemic-ricocheet/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> so-implied as of a social-setup 'self-assuredness-of-ontological-good-faith/authenticity~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective notional—deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency —sublimating—nascence,—disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry,
as the latter instance will fundamentally undermine and ridicule the underlying intellectual a
priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein
contended that in many ways such ontological virginity with regards to intellectual practice
today is covertly being undermined at the more fundamental level of social emancipation
contemplation, and explains why it has herein been seen as relevant to introduce the notion of
ontological-bad-faith/inauthenticity^\textsuperscript{64} anticipating of such anti-intellectual dispositions. As of a
further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute
intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of
theories can be entertained or not, as if there can be knowledge without knowledge! Such
cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since
the end of the Cold War have rather had catastrophic consequences on the world all round in
terms of the price of wars including with regards to the hegemonising policies these covert
initiatives were supposed to instigate. Generally, the idea that such entities and initiatives
covertly undermining the sovereignty of democracies, serve any given society, nation or human
progressive purposes is rather counterproductive, as in fact this actually disrupts the natural
course of sensible human answers to problems and issues and because of their parochial vision
end up aggravating and escalating them, furthering a social narrative of double standards. The
last frontier one can contemplate of with regards to such a proclivity is when it comes to
undermining the intellectual sovereignty as of prospective Being-development/ontological-
meaningfulness-and-teleology^\textsuperscript{99}. Knowledge cannot and should not be forestalled because of
any supposed politico-economic penchant. The idea that liberal society can only be upheld by
artificial and anti-intellectual undermining of many a critical theory including postmodern-
thought as of the vital possibility of human social regeneration, is ridiculous and speaks of
intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such
inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency’ ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is preconverging/postconverging–de-
to-intemperal-dispositions–<so-construed-as-from-perspective–ontological-
normalecy/postconvergence>–existentialism-form-factor, and points out that the way we tend
to-conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional

<including-virtue-as-ontology> of any given idealisation; speaking
of the reality that any idealisation construed as of rules, institutional essence, institutional

to-intemperal-dispositions–<so-construed-as-from-perspective–ontological-

projections of idealisation should be anticipatory-and-preemptive of the possibility of their
prospective ontological-fracturing, for efficient institutionalisation percolation-channelling–<indeferential-formalisation-transference>, ‘in order to be more ontologically pertinent and
resilient constructs’, as they are otherwise subject to the temporal denaturing of such
idealisations with regards to their more profound transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity implications. In the same vein, we tend as
of habit to construe of the fulfilment of human ideals as of the inherent institution and/or
inherent individual identitive dispositions, rather than the fact that it is actually brought about
by the preconverging/postconverging–de-mentative/structural/paradigmatic relations as of
projected principles and essences implied intemporally (in cognisance of human temporal-to-
intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance \(-<\text{including-virtue-as-ontology}>\) is inherent, the underlying preconverging/postconverging–de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance \(-<\text{including-virtue-as-ontology}>\) in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling-\(<\text{in-deferential-formalisation-transference}>\) doesn’t substitute for the \(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought}\) as of the underlying dimensionality-of-sublimating-\{<\text{amplituding/formative}>\text{supererogatory–de-mentativity/epistemic growth-or-conflatedness/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/\text{spirit-drivenness–equalityation}}\}\) individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday,
Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of
ricochetting prospective nonpresencing-<perspective–ontological-

the right epistemic-veracity should provide the direct possibility for constructing its
preconverging/postconverging–de-mentative/structural/paradigmatic meaninglessness-and-

the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the
possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we
can appreciate that the history of physics or any domain-of-study can be construed as the
history of its developing epistemic-veracity in succession as ultimately constrained to
<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-

contemplate and appraise of such a shift as to prospective \( ^9 \) meaningfulness-and-teleology\( ^9 \) as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability\( ^{12} \). Thus metaphoricity\( ^7 \) as such is a notion that is beyond just simplistic transmission/spreading of prospective \( ^6 \) meaningfulness-and-teleology\( ^9 \) as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for \( ^7 \) meaningfulness-and-teleology\( ^9 \) as say the commonality of such metaphoricity\( ^5 \) inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-\((imbued-

But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for \( ^7 \) meaningfulness-and-teleology\( ^9 \) that is instigative, metaphoricity\( ^5 \) is critically about the prospective ricocheting postconverging–de-mentating/structuring/paradigming implications for inducing such prospective \( ^6 \) meaningfulness-and-teleology\( ^9 \) implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology\( ^6 \)-\(<\text{in-preconverging–existential-extrication-as-of-existential-unthought}>\), as the supposedly coherent ontological-commitment \(<\text{implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-

exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so because in the long run transversality of temporal-to-intemporal–ontological-performance -<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’ of temporal-to-intemporal–ontological-performance -<including-virtue-as-ontology>-of-narratives is rather as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity selecting/skewing-towards intemporality /ontological-veracity as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology , when it comes to assessing the possibility of prospective ‘meaningfulness-and-teleology’ inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the-very-same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology including our modern
period, is a flawed appraisal; as in many ways, beyond our <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a notional–deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemicity-relativism-determinism implied <amplituding/formative–
conflatedness /transvalutative-rationalising/ transeptemicity/anamnestic-residuality/spirit-drivenness—equalisation} as of its populism and pecuniary value drive substituting for intellectual reification, and as so increasingly reflected mediatically. This human contrastive mental-disposition to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of— meaningfulness-and-teleology and "presencing—absolutising-identitive-constitutedness" conventioning-referencing speaks at a more fundamental level of the reality that the human subject is not psychologically necessarily driven by an absolute commitment to prospective ontological-veracity given its registry-worldview/dimension preconverging/postconverging–de-mentative/structural/paradigmatic "human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self"/ontological-fracturing/desublimation/gimmickiness complex"; and thus that it has an ontological-veracity deestructuring-threshold{uninstitutionalised-threshold /presublimating–desublimating– decisionality}—of-ontological-performance—<including-virtue-as-ontology>, where beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought it will relate to ontological-veracity as relatively impertinent on critical occasions as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag,, and so-reflected socially as of the uninstitutionalised-threshold. The underlying insight about such ontological-veracity deestructuring-threshold{uninstitutionalised-threshold /presublimating–desublimating– decisionality}—of-ontological-performance —<including-virtue-as-ontology> is that the state of human-subpotency is one where overall its capacity to reflect existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human meaningfulness-and-teleology construal ever always varies as of

‘herein–specifically–relevant–human-subpotency’–epistemic-perspective-of-
worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold ⟨uninstitutionalised-threshold /presublimating–desublimating-decisionality⟩-of-ontological-performance to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confledness— in {preconverging—disentailment by}—postconverging-entailment. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—constutedness—in {preconverging—entailment} since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-
human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipating possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\{(uninstitutionalised-threshold /presublimating–desublimating-decisionality)\}–of-ontological-performance\[-\]~<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology\[-\] whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\{(uninstitutionalised-threshold /presublimating–desublimating-decisionality)\}–of-ontological-performance\[-\]~<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms—as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the
ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrysticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrysticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor, in-overcoming-‘notional–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of–‘nondescript/ignorable–void ’—with-regards-to—
prospective-apriorising-implications>); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes', Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-conflicton as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality /longness and temporality /shortness as to human limited-mentation-capacity relative ontological-performance including-virtue-as-ontology. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness notional–deprocrypticism herein construed as human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiolisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own
deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\(^7\)/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\(^7\) positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipating as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(^{102}\) ⟨uninstitutionalised-threshold /presublimating–desublimating-decisionality⟩~of-ontological-performance\(^7\)–<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity\(^7\) epistemic pertinence doesn’t lie with any inherent suprasocial framework or

\textsuperscript{10} deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought this author has
rather thought it pertinent herein to use the term ‘akrasia’ differently from the more traditionally
restricted personal development implications of the Greek interpretation as of a
\textsuperscript{103} universalising-idealisation self-consciousness but very much along the lines of Socratic
unification of knowledge and virtue, with a deliberate adherence to the derivation ‘akrasiatic’ rather than the traditional derivations ‘acric’ or ‘akratic’ to mark such a break, and further the term ‘antiakrasiatic’ also along the same lines is further meant to emphasise the underlying idea that akrasia is a ‘notion of lack’ which ‘anti disposition’ as of relative-ontological-completeness is then about superseding the lack, and such relative-ontological-incompleteness is superseded rather as of supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process<amplituding/formative-epistemicity—causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity of human limited-mentation-capacity-deepening that goes well beyond a ‘golden mean’/moderation/temperance, etc. behaviour interpretation as implied with ‘enkrateia’ which, as explained and further elaborated elsewhere herein, doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the Good/understanding/knowledge-reification—gesturing—in-prospective.psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in—[preconverging-disentailment-by]—postconverging-entailment/<amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity reference of ontological-contiguity’ but for naively and wrongly implying good-natured qualities as being ontological; and such ‘antiakrasiatic disposition’ is more critically reflected as of underlying human ‘intemporal-as-ontologically-veridical/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and—

The destructuring-threshold\(\{\text{uninstitutionalised-threshold} / \text{presublimating–desublimating–decisionality}\}\) of ontological-performance -<including-virtue-as-ontology> of human articulated-or-acquiesced-to meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, and as preconverging/postconverging–de-mentatively/structurally/paradigmatically reflected at the uninstitutionalised-threshold, speaks of a threshold at which as of our human-subpotency we fail to assume the intellectual-and-moral responsibility arising as of ontological-veridicality so-reflected as from the full sublimating-over-desublimating implications of existence-potency -sublimating–nascence,- disclosed-from-prospective-epistemic-digression ontological-veracity perspective insight of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking–apriorising psychologism. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be

speak of prospective ‘ontologically-hegemonising-narrative’ ontological-performance—

Further and of much more profound reification implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-

The comprehensive social susceptibility to destructuring-transitoriness$^{19}$-as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative$^{31}$. This destructuring-threshold\textsuperscript{02} analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{78}—of-the-human-institutionalisation-process\textsuperscript{08} as to the destructuring implications at uninstitutionalised-threshold\textsuperscript{02} implied human-subpotency epistemic-or-notional–projective-perspective in dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-

We can appreciate here that the-very-same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct amplituding/formative-epistemicity>causality ↗as-to-projective-totalitative–implications-of-prospective-
elicit low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold} /presublimating–desublimating–decisionality–of-ontological-performance –<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance –<including-virtue-as-ontology> destructuring-threshold-{uninstitutionalised-threshold} /presublimating–desublimating–decisionality–of-ontological-performance –<including-virtue-as-ontology> and uninstitutionalised-threshold, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance –<including-virtue-as-ontology> for human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding
of destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}-of-ontological-performance<-including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance<-including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation to prospectively recapture the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘amplituding/formative–epistemicity’ totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ and constructiveness as reflected by ‘amplituding/formative–epistemicity’ totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ inherently elicits from the human-subpotency epistemic-or-notional–projective-perspective reflected as of the

interpreted from a temporal existential-extricatory-as-of-existential-unthought perspective as ineptness warranting the furtherance of temporal-dispositions as of untransvaluated–temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and likewise with the intemporal projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing –apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ of prior relative-ontological-incompleteness is tied to and a necessarily associated notion with that of postconverging-or-dialectical-thinking –apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking –qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the <cumulating/recomposuring–attendant-ontological-contiguity > successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating

dementing apriorising-psychologism as such speaks of the fact that the entire cross-section of
humanity as of recurrent-utter-uninstitutionalisation is of a ‘<amplituding/formative-

ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism,
and our present positivism–procrysticism with respect to prospective deprocrysticism. The fact
is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–de-

further shows how our seemingly objectified presencing—absolutising-identitive-

factor in for instance that more critically rather than construing the prospective reification of the

appreciate how the planets moved around the sun and as this budding-positivism/rational-

as-to-entailing<-amplituding/formative–epistemicity>totalising–in-relative-ontological-

possibility of all huma prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting preconverging/postconverging—de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the preconverging/postconverging—de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-
results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-or-dementing—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the-very-same overall purview that is existence but then as of various state of human relative-ontological-incompleteness/relative-ontological-completeness—{sublimating-referencing/registering/decisioning,—as-self—becoming/self-conflatedness/formative—supererogating—<projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence}> of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology is thus of lower to higher ontological-veracity/ontological-performance—<including-virtue-as-ontology> as of relative-ontological-completeness. Further as of human <amplituding/formative—epistemicity> totalising—thrownness-in-existence with human meaningfulness-and-teleology rather undertaken on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human <amplituding/formative—epistemicity> totalising—purview-of-construal’ and thereof devolving as of existence-as-of-existential-instantiations, the implication is that human meaningfulness-and-teleology is thus ‘a-given—<amplituding/formative—epistemicity> totalising—thrownness-in-existence’ construct on existence-as-of-devolving-existential-instantiations’ as reflected in the ontological-veracity/ontological-performance—<including-virtue-as-ontology> of its given <amplituding/formative—epistemicity> totalising—thrownness-in-existence registry-

Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process\(^{68}\) as the ‘true-ontology—as-of-Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}
disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness—dereification for

reference-of-thought <amplituding/formative–epistemicity> totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence:<as-to-psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment-by}–postconverging-entailment,-in-self-becoming/self-conflicatedness /formative–supererogating arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding

This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance<including-virtue-as-ontology> but this only holds with the mathematic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of ‘meaningfulness-and-teleology’ as of ontological-veracity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency/sublimating–nascence,–disclosed-from-prospective-epistemic-digression as of <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification–gesturing<in-prospective psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness <in {preconverging-disentailment_by}–postconverging-entailment> role and as beyond-the-consciousness-awareness-teleology<in preconverging–existential-extrication-as-

The fact is such implied underpinning–suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own in prior relative-ontological-incompleteness\textsuperscript{88} with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology\textsuperscript{99}, as the social knowledge-reification–gesturing\textsuperscript{<in-prospective psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confledness -in-{preconverging-disentailment-by}–postconverging– entailment> role must always be opened to \textquoteleft intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event\textsuperscript{38} reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of \textquoteleft true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology\textsuperscript{ }; as it is only by the latter process that the \textquoteleft suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of depprocrypticism–or–preempting—disjointedness-as-of– reference-of-thought. We can
appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning-suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning-suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency~sublimating—nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional—deprocrypticism perspective) preconverging/postconverging—de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance—including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology<in-preconverging—existential-extrication-as-of-existential-unthought>.

The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the
cumulating/recomposuring–attendant-ontological-contiguity > successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language—imbuend—averaging-of-thought—as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications—and underpinning—suprasocial-construct—meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism—procrypticism is equally subject to our wooden-language—imbuend—averaging-of-thought—as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications—and underpinning—suprasocial-construct underlying disjointedness—as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold—uninstitutionalised-threshold/presublimating—desublimating—decisionality—of—ontological-performance—including-virtue—as-ontology> which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism—or—preempting—disjointedness—as-of-reference-of-thought supersedes—
the ontological-contiguity of-the-human-institutionalisation-process and as such construal of philosophy is rather considered as morphing as of human division of labour into the disparate subject-matter purviews-of-construal-of-existence reification and so in reflection of existence’s supervening-conflatedness, and with all human meaningfulness-and-teleology remaining of philosophical epistemic-veracity relevance as of deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought singularisation projected epistemic-immanence/veridical-epistemicity-relativism-determinism as implied as of suprastructuralism/postmodernism rejection of science-ideology for science-in-practice and rejection of humanism ideology for authentic human emancipation as of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation; psychology fails ontologically when it naively and wrongly construe of our given positivism–procrypticism relative-ontological-incompleteness of reference-of-thought apriorising/axiomatising/referencing–psychologism as being of ontological-normalcy/postconvergence to go on to imply a practice of reification of psychological traits is what is emancipating of the human condition with the implication that any given registry-worldview/dimension in relative-ontological-incompleteness reference-of-thought say animistic or medieval could just as well be considered in ontological-normalcy/postconvergence and that what is emancipating of the human condition is the reification of psychological traits as of its amplituding/formative–epistemicity–totalising–thrownness-in-existence; amplituding/formative–epistemicity–totalising–self-referencing–syncrétising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology despite the supposed deficiency of its given

This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-
positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is preconverging/postconverging–de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance—including-virtue-as-ontology arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance—including-virtue-as-ontology’ equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-
and-morally accountable then? How can we reconcile the fact that given human \textit{amplituding/formative–epistemicity>totalising–thrownness-in-existence} the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supercratory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic \textit{<amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to- leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications–>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance -<including-virtue-as-ontology> as of human \textit{amplituding/formative– epistemicity>totalising–thrownness-in-existence} induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of- motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that
had gone uncaught before a new technical-development like DNA testing establishes their
criminal responsibility as of human potentiation, cannot talk of natural determinism
implications as a defence just as covert predispositions associated with vices-and-

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/ reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective. deprocripticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of- reference-of-thought’—as-conflatedness—or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procripticism and prospectively deprocripticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language—imbuend-temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology ) as deterministic thus subknowldging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective 8 reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supercerogy~de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogy~de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supercerogy~de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the 8 reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism
knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—re-originariness/re-origination in their positivistic outlook relative to other
outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\_\_\_self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\_\_\_self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as ‘reappraisals of reference-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness\_\_of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergerne. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness’ hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology ⟨in-preconverging-existential-extrication-as-of-existential-unthought⟩. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a
registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stakecontention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrusticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp
in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } — conflatedness in {preconverging-disentailment by} postconverging-entailment and so over procrypticism disjointedness-as-of- reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing . Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } — conflatedness in {preconverging-disentailment by} postconverging-entailment directed to the bigger and subsuming issue of relative-ontological-incompleteness.

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of- reference-of-thought <as-preconvergingly- apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation >) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained- measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold -defect<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-
aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-
processsing/act-execution-implicitation meaningfulness) with an
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not

Since the state of exhibiting a demonstrated perversion-of-reference-of-thought−as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > annuls temporal-dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology , for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t has the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-
mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation mind to wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘attendant-ontological-contiguity’-educed–existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather than logical defect (defect of logical operation/processing/contention). This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: reference-of-thought or axioms or categorical-imperatives (reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, by the prospective relative-ontological-completeness-of-reference-of-thought and logic (logical-operation/processing/contention/implicitation-of-act-execution,

prospective_attendant–ontological-contiguity educed—existentialising/contextualising/textualising-contiguity based on the meaning’s implied reference-of-thought categorical-imperatives/axioms/registry-teleology valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete-reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity’ of reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete-reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity’ of reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising reference-of-thought—
elements/apriorising–registry-elements, and thus falsely implying the apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity of reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity of reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought’. But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘attendant–ontological-contiguity ~educed–
existentialising/contextualising/textualising-contiguity\(^1\) sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity\(^2\) reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity\(^3\) reference-of-thought by way of distractive-alignment-to\(^4\) reference-of-thought\(\langle\)of-apriorising/axiomatising/referencing\(\rangle\) and then reflect the reference-of-thought or registry-teleology\(^5\) of John as perversion-of-reference-of-thought\(\langle\)as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(\rangle\) or mental-perversion in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^6\) In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect–of-logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^7\) defect\(\langle\)as-Being-or-ontological-or-existential–defect\(\rangle\) that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity between—prior-shallow-supererogation of-mentally-aestheticised-preconverging/dementing–qualia-schema and prospective-profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema–as-of-epistemic-decadence in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping—'set-of-dereifying-hollow-narratives-and-acts’>\(^8\) by the denaturing\(^9\) of the reference-of-thought or the soundness-or-ontological-good-

The above is the fundamental nature of psychopathy and ‘it should not be lost even more critically at the adulthood stage and the corollary of social psychopathy’ as increasingly prelogism\textsuperscript{77}–as-of-conviction,–in-profound-supererogation\textsuperscript{5} <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes–disontologising-logical-outcome-arrived-at> minds will tend to align to adult psychopaths and other conjugated-postlogism\textsuperscript{77} teleological mindsets wrongfully as in prelogism\textsuperscript{5} /conviction-as-to-profound-supererogation/or-candored/straightened instead of rightfully keeping a decandored/oblongated/distractive-alignment-to<as-to–reference-of-thought<of-apriorising/axiomatising/referencing> /threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively–disontologising–preconverging/dementing –apriorising-psychologism\textsuperscript{3} (rather circumventive as to distractive-temporal-prioritisation-of–reference-of-thought). Such reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) inherently implies a dialecticism involving supplanting–conviction-as-to-profound-supererogation\textsuperscript{5}–of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism narratives as of organic-comprehension-thinking (organicalism)/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{13}–or-ontological-reprojecting or longness-of-register-
saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought as perversion-of reference-of-thought as

It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-ontological-bad-faith/inauthenticity ‘of reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’, involve ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively rationalises the latest iterated narrative as an elucidation rather than a further preconverging-ordementing –apriorising-psychologism of adult psychopath/postlogism (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further preconverging-ordementing –apriorising-psychologism when wrongly eliciting in an interlocutor logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising—reference-of-thought-elements/apriorising–registry-elements (out of attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity<reifying-or-elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context>). The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative—
as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold—{as-procrypticism}', thus equally implying a <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism–or–disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity—<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context>’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-

It is important thus to know that since the defect of psychopathy and its derivation as social psychopathy has nothing to do with logical-processing
apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity\textsuperscript{17}—\textsuperscript{educed–existentialising/contextualising/textualising-contiguity\textsuperscript{11}} to be had/entertained nor any logical analysis but rather \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation invalidating that the implied—logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology\textsuperscript{90} (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge\textsuperscript{15} of the ‘apriorising—\textsuperscript{apriorising–reference-of-thought-elements/apriorising–registry-elements (out of attendant–ontological-contiguity—\textsuperscript{educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40}}—<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context>)’. This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing\textsuperscript{20}—apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’>–with–‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’
towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as non-veridical and dialectically/counteringly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnante) as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism–as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation –or-prelogism–basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation –or-prelogism–basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his
house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition).

Even if this latter narrative is proven to be false (as it is another \textsuperscript{74} \textsuperscript{75} \textsuperscript{76} \textsuperscript{77} \textsuperscript{78} \textsuperscript{79} perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{43} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising--reference-of-thought-elements/apriorising--registry-elements (out of attendant--ontological-contiguity\textsuperscript{97}--educed--existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context>)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99} such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge\textsuperscript{43} paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge\textsuperscript{43} operating \textsuperscript{98} \textsuperscript{99} \textsuperscript{100} \textsuperscript{101} \textsuperscript{102} \textsuperscript{103} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism\textsuperscript{77} generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting--conviction-as-to-profound-supererogation \textsuperscript{98}--of-‘attendant-intradimensional’-postconverging/dialectical-thinking --apriorising-psychologism even if it is a perception of ‘poor or bad supplanting--conviction-as-to-profound-supererogation --of-‘attendant-intradimensional’-postconverging/dialectical-thinking --apriorising-psychologism’ since that will validate the ‘apriorising--reference-of-thought-elements/apriorising--registry-elements (out of attendant--ontological-contiguity\textsuperscript{47}--educed--existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context>)’ on the basis that it was the logical-
processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism’—as-of-conviction,—in-profound-supererogation <existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> re-engaging reflex wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of—reference-of-thought—<as-preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> ‘preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism—basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,—in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting—<as—disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative-looping—set-of-dereifying-hollow-narratives-and-acts> as absolving/fleeting/escaping-reflex—logic among different set-of-interlocutors (this is simply
because postlogism operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism (due to the ‘lack of constraining social universal-transparency (transparency-of-totalising-entailing, as-to-entailing <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting from some interlocutors with no more commitment given the inconsistency of the hollow-constituting in postlogic-backtracking-<iterative-looping,‘set-of-dereifying-hollow-narratives-and-acts’> as
over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism™-as-of-conviction,-in-profound-supererogation’-<existentially-veridical–'attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath ™perversion-of- reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism™-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process
circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’ (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting–conviction-as-to-profound-supererogation–of–`attendant–intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism contentsions’ not in the ‘essence/conviction-as-to-profound-supererogation’ sense’ but rather as ‘formulaic mental alienation schemes’ wherein disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness (in order words the developmental psychology of the psychopath is actually to perceive supplanting–conviction-as-to-profound-supererogation–of–`attendant–intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism meaning as formulaic-schemes/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated, to which it responds in kind), and so is in transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–`motif-and-

by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a
social-stake-contention-or-confliction as to preconverging/postconverging–de-
menting/structuring/paradigming implications. Critically, it should be understood that passive
or suggestive alienation is actually the summum of the possibilities of the psychopath’s
meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the
mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition
conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing –apriorising-psychologism’ is not really ontologically-speaking a
prelogic/conviction-as-to-profound-supererogation | mental state but rather technically a
‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two
stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as
an ignorant of psychopathic postlogism | in hollow-constituting–<as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the
interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-

affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that
this psychopathic manifestation process can be mimicked in the context of social psychopathy,
and more thoroughly when as ‘exacerbation-temporal-disposition
conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing\textsuperscript{79}–apriorising-psychologism’. Over a given or extended period the underlying effect
sought by the psychopath might stick, especially where the social target, interlocutors and
others are utterly unaware of the mental state of the psychopath, and so evolving more like a
social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-
or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or

Paradoxically, the normal prelogism\textsuperscript{78}–as-of-conviction-,in-profound-suprerogation \textsuperscript{82}–existentialveridical–attendant-intradimensional–apriorising/axiomatising/referencing\textsuperscript{3}-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{3} mind is so attached by

That’s why the manifestation of ‘poor or bad supplanting-conviction-as-to-profund-superalgeration —of-attendant-intradimensional’

In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledged’/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologisinglogical-outcome-arrived-at> mind deterministic of other prelogism-as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologisinglogical-outcome-arrived-at> minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallelisation of mere-formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) with their corresponding prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologisinglogical-outcome-arrived-at> as to intrinsic-attribution veridical-meaningfulness elements (which are subknowledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement—{easily copied with conjugated-postlogism at an intuitive-level},’ as subknowledge ‘prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologisinglogical-outcome-arrived-at> toning/mannerisms’; ‘hollow mimicking

Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-{parsimony-as-of-shodiness-and-incompleteness-to-meaningfulness-and-teleology} including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly grasable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism-compulsing-nonconviction/madeupness/bottomlining-{decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing}-induced-disontologising–of-the–attendant-intradimensional–ontologising–imbued-contextualising/existentialising–attendant-ontological-contiguity–in-shallow-supererogation–as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness} mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect.

(The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism’<as-of-conviction,—in-profound-supererogation—<existentially-veridical—attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopath-and/or-the-protracted-postlogism ‘comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemicisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism<sup>17</sup>, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<sup>17</sup> as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising—
ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodge which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing\textsuperscript{20}—apriorising-psychologism, and so as ‘ONTLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emancient template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing\textsuperscript{20}-apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging \textsuperscript{19}) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge\textsuperscript{17} for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge\textsuperscript{13} for postlogic slantedness to attain an apparent normal social equilibrium or socially-
functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-sup ererogation –of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity –of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-sup ererogation –of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-sup ererogation –of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting–preconverging-or-dementing –apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting–preconverging-or-dementing –apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. 
Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–attendant-intradimensional–prospectively-disontologising–preconverging/dementing–apriorising-psychologism> or ‘uninstitutionalised-threshold’ of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–attendant-intradimensional–prospectively-disontologising–preconverging/dementing–apriorising-psychologism>): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism-as-of- compelling–nonconviction/madeupness/bottomlining-<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity >;-in-shallow-supererogation-<as-to-disontologising-perverted-

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise
develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after

However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency\(\langle\)transparency-of-totalising-entailing–as-to-entailing–amplituding/formative–epistemicity\rangle\) totalising–in-relative-ontological-completeness of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency\(\langle\)transparency-of-totalising-entailing–as-to-entailing–amplituding/formative–epistemicity\rangle\) totalising–in-relative-ontological-completeness of notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>. That is, abstractly, with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome
with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)’, then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (involving protracted/derived slantedness), in the absence of social universal-transparency–(transparency-of-totalising-entailing-as-to-entailing-amplituding-formative–epistemicity-totalising–in-relative-ontological-completeness) on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency).

Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of~meaningfulness-and-teleology) or temporal (shortness-of-register-of~meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory–dementativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge'~{preconverging-or-dementing-as-if-of-sound-knowledge}/pervert intemporal categorical-

psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-

subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-

the traditional categorical-imperatives of addition and subtraction will be modified to take
account of our perversion/defect by saying that additionality will involve subtracting 1 from the

transcendental-enabling/sublimating/supererogatory~de-mentativity) ‘the cross-section of
human entropic being’ in the medium to long run towards intemporal-disposition preservation
while undermining temporal-dispositions. Such a depth-of-thought as projected by the
‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-

hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting psychological science’
termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively
compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be
confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is
inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the
result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having
issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is
called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So
inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the
distilling process. Thus reasoning from the overall perspective of the human species we can’t
afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as
psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because
every successive transcendent level ‘did its homework’ that we are in the positivistic world,
and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-
recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-
perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-

unshackling process of undermining persuasion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that is). Hence ‘our homework’ is to articulate our very own persuasion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-induced,‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism’, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation,–or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing> of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing-apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity
(with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supernatant/supernatural/supernormality/ontological-preservation wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional-deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposing/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposing. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposing show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’}

devising-representation’ by positivism, and prospectively, proscripticism ‘preconverging-or-dementing’–apriorising-psychologism mental-devising-representation’ by deprocripticism. This brings up the notion that while canondoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality^2^--of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology^9^, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold^2^, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into a prospective registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology^9^ put into question this canondoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology^9^ is then represented as preconverging-or-dementing^2^–apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}. Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology^9^ and ontological-veridicality/ontological-contiguity^6^ of reference-of-thought (from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective); with the ontologically-veridical/ontological-contiguity^10^ mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity <-between—prior-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-
after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-\textsuperscript{19} preconverging-or-dementing\textsuperscript{20}—apriorising-psychologism-or-subknowledgeing\textsuperscript{19}—perversion-of\textsuperscript{21} reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{22}—of base-institutional meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of-\textsuperscript{1} reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{22} of base-institutional meaningfulness). (iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding non-positivism/medievalism (as perversion-of-\textsuperscript{1} reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{22} of universalistic meaningfulness). (iv) for Rational-Realism (deprocrypticism), it prospectively has to do with ‘notional–firstnatureredness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability/intemporality\textsuperscript{17}-skewing (‘intemporality\textsuperscript{17}-asymmetric-subsumption-of-temporality\textsuperscript{18}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) rules/principles’ as ‘a memetic ontological entrapment’ for superseding procrypticism (as the perversion-of-\textsuperscript{1} reference-of-thought<as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{22} of positivistic meaningfulness). Thus in the bigger scheme of things, just as a contrastive dialectical insight
and-not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective de-mentation ⟨supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics⟩ of our perversion-of-reference-of-thought¬as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation
as of the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemoral-preservation-entropy-or-contiguity—or—ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procrypticism—or-disjointedness-as-of-reference-of-thought. Noting as well that previous uninstitutionalised-threshold as to recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications of supposed postconverging—dementating/structuring/paradigming as we do in our positivistic/procrypticism registry-
worldview, within the ambits of their the-Good/understanding/knowledge-reification–gesturing—\textit{in-prospective psychologismic–apriorising/axiomatising/referencing–\{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity \}}—conflatedness –in–\{preconverging-disentailment–by\}–postconverging–entailment–/\textit{amplituding/formative–epistemicity}–causality –as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity conceptualisation. But then their stranding from the prospective institutionalisation/intemporalisation represents them as preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism–\textit{stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase} as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism un institutionalisation/unintemporalisation for futural \textit{Being–development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology} as of prospective notional–deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising/mirage than the ontological-veridity/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective). This equally explains why uninstitutionalised-threshold\textsuperscript{02} equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure–\{as-to–historiality/ontological–eventfulness /ontological-aesthetic-tracing–\textit{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism} \} process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of
notional-discontiguity/epistemic-discontiguity<between—prior-shallow-supererogation—of—mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound—supererogation—of—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> (undisambiguation as notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procrypticism—or—disjointedness—as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory—dementativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the
miscuing of meaning as of notional-discontiguity/epistemic-discontiguity between prior shallow-supererogation of-mentally-aestheticised-preconverging/dementing—qualia-schema-and-prospective-profound-supererogation—of-mentally-aestheticised-postconverging/dialectical-thinking—qualia-schema. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality’–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity’ in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing–dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘postconverging-or-dialectical-thinking’–apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-

dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state

instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and
higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-
uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and
higher with universalisation–non-positivism-or-mediievalism and our positivism–
procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-
normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts
will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview.

The conceptualisation of reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{99} refers to the same deconstructed/ontological-reconstituting—as-to-conflatedness\textsuperscript{1} notion; axioms emphasises and hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology\textsuperscript{99} (short for the apriorising—registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology ) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing meaningfulness-and-teleology\textsuperscript{99}. The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology\textsuperscript{99}, and is capable of ontological-reconstituting—
as-to-conflatedness/reconstruction involving de-mentation-\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} with corresponding de-mentation-\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} hermeneutically/textually/reproductively/supererogatingly/zeroingly/re-acutingly-educing-human—\textsuperscript{5}\—meaningfulness-and-teleology\textsuperscript{98}—into-the-existentialism-becoming of personhoods-and-socialhood-formation. More precisely, perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing\textsuperscript{70}—apriorising-psychologism mental-devising-representation implies registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{77}—defect<as-Being-or-ontological-or-existential—defect>\textsuperscript{85}’ (reflecting ‘defects threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to—attendant—intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising-psychologism\textsuperscript{71}’) and this provides the social backdrop underlying the compulsive manifestation of a given registry-worldview’s/dimension’s postlogism\textsuperscript{77}/psychopathy in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemperal-preservation> wherein disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness involving postlogic-backtracking<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’>\textsuperscript{6} in inducing a protracted social dynamics threshold of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-

This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity\textsuperscript{9}–of\textsuperscript{8} reference-of-thought is still relevant where there is failing/not-upholding,<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-faith/authenticity\textsuperscript{9}–of\textsuperscript{8} reference-of-thought on the other hand implies being-or-ontological-or-existential-or–meaningfulness-and-teleology\textsuperscript{9} disposition as of supplanting–conviction-as-to-profound-supererogation\textsuperscript{9}–of– ‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect–of– logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and so in effective prelogism\textsuperscript{9} wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. possibly-of-preconverging-or-dementing–apriorising-psychologism/possibly-of-unsoundness-
or-ontological-bad-faith/inauthenticity-of-reference-of-thought) in implying the ‘upholding
of their sound-reference-of-thought status’. To illustrate, suppose X and Y are contending
(ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is
using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how
to stack up the pencils to use to count the whole lot, then where his answer was to come out as
5+4=8, we talk of defect-of-logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to
produce the right answer but X’s-logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the
notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking–
apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity’-of-
reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness ) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> performers subsequent acts of-similar-or-protracted-contextualisation to their prior acts verified to be of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> are priorly projectively invalidated by reflex as ‘possibly-of-preconverging-or-dementing’–apriorising-psychologism’/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity’-of-
reference-of-thought and not ‘possibly-of-postconverging-or-dialectical-thinking’–apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity’-of-
reference-of-thought in implying the ‘revoking of their sound reference-of-thought status’.

To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing–apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity <between—prior-shallow-supererogation -of-mentally-aestheticised—preconverging/dementing —qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised—postconverging/dialectical-thinking —qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. The ‘de-mentionation—supererogatory—ontological—de-mentionation-or-

potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals- and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on
inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-totalising-entailing-entailment because they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, contrasted with a temporal extricatory preconverging–de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s recomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as
notional-deprocriptism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipating possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology\textsuperscript{99} in reference (as ‘tentative\textsuperscript{8} references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived\textsuperscript{56} meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking\textsuperscript{21}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness\textsuperscript{87}) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-

It should thus be noted that the preconverging-or-dementing–apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-to-conflicatedness /deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness’ \textsuperscript{8} reference-of-thought defective \textsuperscript{8} reference-of-thought–\textsuperscript{9} categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure–\{as-to-\textsuperscript{46} historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–\textsuperscript{38} ‘epistemicity-relativism-determinism’>\}, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter epistemic-totalising\textsuperscript{33}–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting circle exercise of ontological-reconstituting–as-to-conflatedness /deconstruction (of our notional~firstnaturedness—temporal-to-intemporal-dispositions–\textsuperscript{99} so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism as to mere-formulaic positivistic meaningfulness-and-teleology\textsuperscript{99}) in a positivistic registry-worldview preconverging/postconverging–de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting—as-to-conflatedness\(^{13}\)/deconstruction (which is the critical subsuming mechanism for re-establishing \(^{1}\)reference-of-thought and ontological-veridicality/ontological-contiguity\(^{7}\) as intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, above and beyond the simple hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) of defective \(^{8}\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{99}\),-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). preservation-entropy-or-contiguity–or–ontological-preservation (ontological-reconstituting–as-
to-conflatedness\textsuperscript{[1]}). This fundamental dilemma of the cross-section of human mentation
disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional–firstnatedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-salubrity—{(amplituding/formative)supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunum—of-social-functioning-and-accordance to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of—meaningfulness-and-teleology(9) individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of—meaningfulness-and-teleology-or-hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> individuations dispositions); with corresponding percolation-channelling<in-deferential-formalisation-transference> facilitating the perpetuation of such intemporal enculturation even when such positive-opportunum—of-social-functioning-and-accordance gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipating potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism<reifying{as-to-knowledge-developing}-and-empowering! Rational-realism (as
to prospective deprocripticism) as such involves rather elucidating distincive-alignment-to-

preconverging/postconverging-de-mentative/structural/paradigmatic teleologies: -
subknowledging-impulse/compulsive-dementing
temporal-disposition (psychopath), with
‘slanted mechanical narratives’ (preconverging-or-dementing–apriorising-psychologism-
<stranded-as-rightfully-oblongated/deandored-and-dialectically-or-contendingly-out-of-

Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive
their registry-worldview/dimension as ‘un-transcendable’ (acting as if in intemporal-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension ‘perversion-of- reference-of-thought- as-preconvergingly- apriorising/ axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow- supererogation’ as to preconverging-or-dementing –apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology’/-for- intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and- sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-
worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation existential mental orientation to avoid postconverging-or-dialectical-thinking-apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase (for example, no ‘God-of-plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms-as-of-axiomatic-construct of the reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, and so beyond logical defect). SUPRASTRUCTURING effectively involves: (a) ‘registering’/de-mentionation (supererogatory-ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics) of the pervasion-of-reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supenceragration associated with social psychopathy dynamism, i.e. procrypticism—or—disjointedness-as-of-reference-of-thought mental-slantedness/decandoring (b) ‘superseding’ by developing universal axiomatic construct/categorical-imperatives preempting ‘(a)’ above which are habituated over a generation or two of the human species for notion—deprocrypticism institutionalisation/intemporalisation transcendence-and-sUBLIMITY/sublimation/superceragatory—de—mentativity involving its formalisations and internalisations (psychoanalytic-unshackling by: (i) articulating a social universal-transparency (transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ) of the registry-worldview-perversion, (ii) generating <amplituding/formative—epistemicity>causality—as-to-projective—totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological—contiguity ‘internal contradiction’ in the pervasion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supenceragration registry-worldview
positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag> or the referencing/registering/decisioning of meaning in terms–as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/uttered, for instance, retrospectively the ‘God-of-plane’… type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist reference-of-thought–categorical-imperatives/axioms/registry-teleology, and this will equally apply prospectively between notional–deprocrypticism and procrypticism as the procryptic mindset/reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation preconverging–de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the

This way of \textbf{epistemic-totalising}\textsuperscript{53}–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any amplituding/formative–epistemicity\textsuperscript{2}totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–\textsuperscript{9}categorical-imperatives/axioms/registry-teleology\textsuperscript{99} devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99} to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Deprocrypticism’s suprastructuralism involves ‘intemporality\textsuperscript{55}–asymmetric-subsumption-of-temporality\textsuperscript{9}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity existence-potency\textsuperscript{99}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-construed as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99} over shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}; and so, beyond just about a prospective moral

‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-
