Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic
design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development ‘is not contiguous as to the very inherent nature of any given institutionalised framework’ as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing (amplituding/formative) wooden-language
categorical-imperatives/axioms/registry-teleology stifling prospective sublimating possibilities, thus requiring prospective fundamental reconception that thus speaks of the ‘preconverging/postconverging–de-mentating/structuring/paradigmning underlying overall human social and institutional progress and development’. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’ right up to the present, it also cognisant that at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification–gesturing—a—in-

But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on (as to wrongly imply that it is veridically in dialogical-equivalence~as-to-psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } = conflatedness ~in-[preconverging-disentailment_by]–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating>), as such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology ~<in-preconverging-existential-extrication-as-of-existential-unthought> ) only leads to a human destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}~of-ontological-performance ~<including-virtue-as-ontology> which habituates and enculturates/endemises such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity; rendering the supposedly empowering activity of knowledge-reification–gesturing~

‘dynamic-cumulative-aftereffect of subontologisation’

‘postlogic denaturing of temporal-dispositions individuations ontological-performance—including-virtue-as-ontology> as conjugated-postlogism’ is so-inherently linked with the registry-worldview uninstitutionised-threshold.

Proof of the Sartrean notion of ‘existence-preceding-essence’ or the Derridean notion of ‘there is nothing outside the text’

at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor

distortion of ontologically-veridical-meaningfulness from postlogism and conjugated-postlogism/preconverging-or-dementing-integration leading to temporal-preservation-as-pseudointemporality-preservation occurs at the three levels of contextualisation as individuation, intradimensional and transcendental/transdimensional/interdimensional/maximising-recomposing—relative-ontological-completeness—unenframed-conceptualisation

The vocation of the intemporal-disposition (intemporality/ontological-construct/longness-of-register–of-meaningfulness-and-teleology) is not-to-come-to-and-construe meaningfulness-and-teleology at a same pedestal as a temporal-dispositions extricatory preconverging–de-menting/structuring/paradigming

with or without postlogism including psychopathic individuations, human limited-mentation-capacity-deepening warrants that our temporal-dispositions will nonetheless still fail the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation at the registry-worldview/dimension uninstitutionalised-threshold

postlogic/psychopathic mental-disposition will seem to be the ‘weakest human mental-disposition for acting intemporally in supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism reflex to meaningfulness-and-teleology as of its intrinsicness/essence/ontological-veridicality’

derived-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–attendant-intradimensional’–postconverging/dementiaing–apriorising-psychologism’ social constructions of meaningfulness are in effect reflecting the registry-worldview/dimension uninstitutionalised-threshold requiring corresponding prospective institutionalisations/intemporalisations

incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation tends to operate as if at any one instance human meaningfulness is absolutely set (and so rather as mere-formulaicity<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising—prospectively-losing-track-of–epistemicity-totalising–apriorising/axiomatising/referencing–residuality—in–re-originariness/re-origination>) and thus incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is non-transcendental

deepuer superseding—oneseness-of-ontology conceptualisation and shallow superseding—oneseness-of-ontology conceptualisation, central to a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation

social phenomenon is determined and effectively deconstructible/ontologically-reconstitutable from the inherent dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—as-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor

unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our notional—firstnaturedness—temporal-to-intemporal-dispositions—as-construed-as-from-perspective—ontological-normalcy/postconvergence), however, the notion of ‘consciously-spoken’ as herein highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the requisite ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation—dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring.

Deprocripticism, with respect to the central concept of ‘knowledge-notionalisation’ wherein understanding is much more than about grasping the ideals but equally preemptively construing the possibilities of ‘the ignorances/desublimation’/temporal-dispositions as part and parcel of knowledge construct

The capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies

‘knowledge-notionalisation’ or knowledge construct not only based on intemporal idealisation but
that also factors in how the temporalities will relate to meaning

‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity
(and are basically our virtue with no need for ‘false idealisation’)

with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-

by its ‘abstract preemptive mechanisms’

a ‘referential-as-natural’ conceptualisation of knowledge that consciously tautologically subsumes
temporal-dispositions and intemporal-disposition

Suprastructuralism ultimately reflects the ontological-contiguity—of-the-human-

need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations

The notion of temporality/shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions

readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposing) with its increasing-ontological-completeness or diminishing–human-epistemic-abnormality-or-preconvergence

a traditional approach of analysis of psychopathy (as so construed from this paper’s totalising-entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery

of imbricated-becoming-transitioning within which they come to grasp rules and principles

knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as to ‘intrinsic-reality/ontological-veridicality transcendental enabling’

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation –of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism –as-of-conviction,-in-profound-supererogation –<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism -as-of- compelling–nonconviction/madeupness/bottomlining –(<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising‘-of-the- ‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising/existentialising–attendant-

Hence prelogism ‘-as-of-conviction,-in-profound-supererogation’-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—
differentiation of existential ‘meaningfulness-and-teleology’. The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism /preconverging-or-dementing -integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-transparency - (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity> totalising-in-relative-ontological-completeness )) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

Further, the dynamics of such a graduated human consciousness as of notional-conflatedness of notional-deprocrypticism can be reinterpreted operantly as of ‘notional-referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional-deprocrypticism referentialism—ontologically-uncompromised mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure
ontological-completeness-of reference-of-thought’, and thus are construed as of the same notion of referentialism implied as to knowledge-notionalisation, and so as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism imbued knowledge-notionalisation. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’, they still act as if of ‘notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so in their beyond-the-consciousness-awareness-teleology preconverging–existential-extrication-as-of-existential-unthought preconverging-or-dementing apriorising-psychologism thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness of reference-of-thought of meaningfulness-and-teleology’. Neuterising thus refers to human attribution of ‘meaningfulness-and-teleology as of human limited-mentation-capacity preconverging/postconverging–de-mentative/structural/paradigmatic misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought-as-to-preconverging–dementating/structuring/paradigming—ontological-performance including-virtue-as-ontology is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness, and so-construed from the apriorising/axiomatising/referencing-
attendant-ontological-contiguity ~educated-existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging-disentailment by} postconverging-entailment of notional-deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>’, that is secondnatured as of its prior relative-ontological-incompleteness of reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness of reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness of reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones clothes and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of-nonconviction/madeupness/bottomlining-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism>. This is a most elaborate articulation of neuterising as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implications but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and prospective deprocrypticism.
with the latter underlying the disjointedness-as-of reference-of-thought of the former as to its neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional-referentialism/notional-deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-educating, as-of-its-specific-constitutedness’

relativism-determinism implied <amplituding/formative-epistemicity>causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity’ is one grounded as of de-mentation-{supererogatory-ontological-de-angement-or-dialectical-de-mentation—stranding-or-attributive-dialectics} on ‘decentering/pivoting around the uninstitutionalised-threshold rule’ as a remaking of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology’, pointing out that the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument has been superseded as of its revealed perversion-and-derived- perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and so as of the uninstitutionalised-threshold rule. This explains why at uninstitutionalised-threshold which are subject to ‘meaningfulness-and-teleology neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness ⟩ that overcomes the given uninstitutionalised-threshold meaningfulness-and-teleology neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness-of reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of meaningfulness-and-teleology individuation without temporal/shortness-of-register-of meaningfulness-and-

development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of– meaningfulness-and-teleology \textsuperscript{98} as of prospective notional–deprocrypticism Being and ‘meaningfulness-and-teleology\textsuperscript{99}. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising \textsuperscript{51} neuterising, qualifying \textsuperscript{51} neuterising, tendentious \textsuperscript{11} neuterising and impulsive \textsuperscript{5} neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data
conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of existentialising/contextualising/textualising-contiguity’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness reference-of-thought.

Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in {preconverging–dissentailment by}–postconverging-entailment’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that 83 reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness reference-of-thought in the very first place cannot be the basis for articulating, as of their given apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in {preconverging-entailment, by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness

Such a basic conception of comparative axiomatic-constructs in their reflection of the-very-same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/’reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’
apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance—<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure—

same disjointedness-as-of reference-of-thought terms-as-axiomatic-construct by which the pro crypticism–or–disjointedness-as-of reference-of-thought arises in the first place is in circular <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any

Such notional–conflatedness\textsuperscript{15} for ontological-performance\textsuperscript{17}–including-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence\textsuperscript{16}(implicated-epistemic-veracity–of–nonpresencing<perspective–ontological-normalcy/postconvergence>) when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms–as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivist social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of\textsuperscript{18} reference-of-thought–categorical-
Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endavouring unleashed as of a ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation

This conceptualisation insight points out that prospective procrypticism—or–disjointedness-as-of-reference-of-thought uninstitutionalisation associated with our positivism–procrypticism registry-worldview/dimension as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness—reference-of-thought is effectively the defective result of our positivism institutionalisation destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance—

As a further elaboration, the circularity and <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigming/teleological-possibilities established as of its reference-of-thought–and–reference-of-thought devolving–meaningfulness-and-teleology\textsuperscript{99} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in the medium to long-term that can transcendentally ‘wean off’ from such a teleological-de-mentating/structuring/paradigming/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought–and–reference-of-thought devolving–meaningfulness-and-teleology\textsuperscript{99} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. This explains as of metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>) why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated

Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness$^i$ of reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness$^{ii}$ of reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness$^{ii}$ of reference-of-thought, and thus rather implies an de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notiona~deprocrypticism axiomatic—

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{56} al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human meaningfulness-and-teleology\textsuperscript{99} is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation necessary for human development and progress. intellectual disposition associated with conceptual-patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity~/~educated–existentialising/contextualising/textualising-contiguity ~/~educed–. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness ~/~reference-of-thought, as of the incompleteness of the preconverging–de-mentating/structuring/paradigming of human ~/~reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual-patterning perspective on that basis equally inherits that relative-ontological-incompleteness ~/~of the preconverging–de-mentating/structuring/paradigming of human ~/~reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~/~educed–existentialising/contextualising/textualising-contiguity ~/~conflatedness ~/~in–preconverging–disentailment by}–postconverging–entailment but rather suffers from apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~/~educed–existentialising/contextualising/textualising-contiguity ~/~constitutedness ~/~in–preconverging–entailment. It is such a conceptual-patterning mental-reflex associated with categorising/taxonomising dispositions in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity} ~constitutedness ~in–preconverging-entailment that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising ~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation ~<as-to-perspective–ontological-normalcy/postconvergence-implied–'prospective-aporeticism-overcoming/unovercoming'>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity ~<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context> above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and
quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity\}—constitutedness in preconverging entailment defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity\}—constitutedness in preconverging entailment but rather such ‘depth/axiomatic-contruct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by an apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity\}—conflatedness in {preconverging-disentailment by}–postconverging entailment as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context> is then the preceding and transformative element of ‘meaningfulness-and-teleology’ conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–
epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity’ dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity}—confledness—in-{preconverging-disentailment–by}–postconverging-entailment. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party. Further, such conceptual-patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity}—confledness—in-{preconverging-disentailment–by}–postconverging-entailment in (re-originarn-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking –'projective-insights’/‘epistemic-projection-in-confledness’–of-notional–deprocrypticism-prospective-sublimation}) originary/event–of-prospective-

This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity} of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual-patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual-patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere preconverging/postconverging–de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness ~in–preconverging-entailment rather than striving to expand the transcendental-

nonpresencing,-for-explicating-ontological-contiguity existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual-patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual-patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory~de-
mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual-patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual-patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory~de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual-patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity nature and differences as well as their divergence in “meaningfulness-and-teleology” implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of “maximalising-recomposuring-for-

lies in the fact that the construal/conceptualisation of an epistemic-totalising ~devolved–

The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness<sup>87</sup>-of-reference-of-thought/ontological-normalcy/conflatedness<sup>13</sup>. Since there is no direct correspondence between relative-ontological-incompleteness<sup>88</sup>-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring with the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology<sub>99</sub>-in-preconverging-existential-extrication-as-of-existential-unthought<sup>6</sup> of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness<sup>87</sup>-of-reference-of-thought/ontological-normalcy/conflatedness<sup>13</sup> which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness<sup>88</sup>-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness<sup>88</sup>-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-
reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance -<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance -<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology -<including-virtue-as-ontology> of human construal/conceptualisation of it. Insightfully, it highlights that apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity } constitutedness in preconverging entailment arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory–human-subpotency>—effecting can only arise from the apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging entailment of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging–disentailment by}–postconverging-entailment that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{14} induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{13} \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{90}. That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging–disentailment by}–postconverging-entailment, with no intermediating construct as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—

This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional–deprocrypticism referentialism—ontologically-uncompromised-mediating, as of conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment construals in terms—of axiomatic-construct of the various neuterising. Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating, as of its specific constitutedness towards ontologically-uncompromised-mediating, as of conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-

This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s/"reference-of-thought as an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our "reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Basically, existence

In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative–epistemicity> totalising–self-
Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the

correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, with increasing ontological-performance <including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-
outside—prospective attendant—ontological-contiguity\textsuperscript{7}—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{8}, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring—\textless \textit{as-to-postconverging-or-dialectical-thinking—apriorising—psychologism}\textgreater \textsuperscript{9} as of ‘maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{7}—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to attendant–ontological-contiguity\textsuperscript{7}—educed–existentialising/contextualising/textualising-contiguity\textsuperscript{8} of other applied and transcendental-enabling/sublimating/supererogatory–de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of
developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification–gesturing—\textsuperscript{in-prospective\_psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~\textsuperscript{educed–existentialising/contextualising/textualising-contiguity\}}—\textsuperscript{conflatedness ~\textsuperscript{in–\textsuperscript{preconverging-disentailment\_by]~\textsuperscript{postconverging-entailment}\}}} for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that
mathematics (as to its epistemic-conception phenomenal/manifest-subpotency{(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-suprerogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies{(in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence) given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory-de-mentativity of the physics <amplituding/formative–epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-
enabling/sublimating/supererogatory-de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation⁹. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension "reference-of-thought-as-of-\(^\dagger\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-\(\text{implicated-epistemic-veracity-of-}\)
nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle\) that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed \(\text{meaningfulness-and-teleology}^{9}\). The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \(\text{reference-of-thought-as-of-}^{2}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by futural \(\text{Being-development/ontological-framework-expansion–as-to-depth-of-}\text{ontologising-development-as-infrastructure-of–}\text{meaningfulness-and-teleology}\) as of prospective \(\text{deprocrypticism–or–preempting—disjointedness-as-of–}\text{reference-of-thought}\) registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence\(\langle\text{implicated-epistemic-veracity-of–}\text{nonpresencing-}\langle\text{perspective–ontological-normalcy/postconvergence}\rangle\rangle\) and \(\text{apriorising/axiomatising/referencing–}\{\text{of-attendant–ontological-contiguity ~educed–}\text{existentialising/contextualising/textualising-contiguity} \}\) conflatedness in \{\text{preconverging-disentailment by}–\text{postconverging-entailment}\}, and further subsumed in the word candidity or candidour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve \(\text{apriorising/axiomatising/referencing–}\{\text{of-attendant–ontological-contiguity ~educed–}\text{existentialising/contextualising/textualising-contiguity} \}\) constitutedness in \{\text{preconverging-entailment}\} construal of ‘meaningfulness-and-teleology’ that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the \(\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \) naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological 5<meaningfulness-and-teleology> could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness<of-reference-of-
thought apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity } —constitutedness —in–preconverging-entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness of reference-of-thought is a preconverging/postconverging—dementative/structural/paradigmatic deficiency inducing the totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity —educed–existentialising/contextualising/textualising-contiguity } — conflatedness in {preconverging-disentailment—by—postconverging-entailment which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory—de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity of the-human-institutionalisation-process is an empirical fact, and thus the
resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism—of-social-functioning-and-accordance as of human amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is preconverging/postconverging–de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved
internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology’ with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a preconverging/postconverging–de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness–of–reference-of-thought occurs because preconverging/postconverging–de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-
register-of—meaningfulness-and-teleology given their supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> as of more profound <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating—ontological-contiguity validation as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression, as re-originary—as-unenframed/unbeholding/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—‘projective—insights’/‘epistemic-projection-in-conflatedness—’of-notional—deprocrypticism-prospective—sublimation), that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism—of-social-functioning-and-accordance by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of—meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of—social-stake-
contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-within—amplituding/formative–epistemicity)—totalising—in-relative-ontological-completeness about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality—that is subject to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression validatory—amplituding/formative–epistemicity—causality—as-to-projective-totalitative-implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment ~implies self-assuredness of ontological-good-faith/authenticity ~postconverging de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> respectively as of superstitious spiritualism "meaningfulness-and-teleology" or scholasticism pedantic dogmatism "meaningfulness-and-teleology", as of the given social-setup ‘self-assuredness of ontological-good-faith/authenticity ~postconverging–
de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment —<implied—self-assuredness-of-ontological-good-faith/authenticity —postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality> of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced <amplituding/formative–epistemicity>causality —as-to-projective-totalitative–implications-of-prospective—nonpresencing—,for-explicating-ontological-contiguity superseding meaningfulness-and-teleology as from existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression epistemic-or-notional—projective-perspective of relative-ontological-completeness—of—reference-of-thought by way of <amplituding/formative–epistemicity>causality —as-to-projective-totalitative–implications-of-prospective—nonpresencing—,for-explicating-ontological-contiguity such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism—of-social-
predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology\(^7\)–\(<\text{in-preconverging-existential-extrication-as-of-existential-unthought}>\) with respect to prospective metaphoricity\(^7\) as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocripticism metaphoricity\(^7\) implications are necessarily spurious and associated with our positivism–procripticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity\(^7\) implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of \(<\text{amplituding/formative–epistemicity}>\text{causality }\text{as-to-projective-totalitative–implications-of-prospective–nonpresencing, for explicating-ontological-contiguity}\) so long as it is socially and institutionally credible to uphold non-positivism ‘meaningfulness-and-teleology\(^9\) in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity\(^7\) that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement
with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks preconverging/postconverging–de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity

while the latter is upholding \(^8\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of \(^8\)reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-\(^8\)reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold \(^0\), there is a relative variance of ontological-completeness-of- reference-of-thought as of the prospective relative-ontological-completeness\(^8\)-of- reference-of-thought in intemporal\(^8\)/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness \(^8\)-of- reference-of-thought in temporality\(^7\)/shortness entailing the uninstitutionalised-threshold \(^2\); thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold \(^0\) in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of \(^8\)reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold \(^0\) and the prospective institutionalisation; given the variance of temporality\(^7\)/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively \(^8\)procrypticism–or–disjointedness-as-of-\(^8\)reference-of-thought with

The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology’ mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or—
ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology<in—preconverging-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of—meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness—induced—‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation’—as-to—‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism’ is in a state of <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of—reference-of—

meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations
of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took
hold arose because those budding scientists had a sense that the very ‘detached, contemplative
and blurry human social-construct of knowledge’ background had to be superseded as of its
scholasticism and mysticism underlying knowledge background for a positivism/rational-
empiricism knowledge background to take hold as transcendental-
enabling/sublimating/superceratory–de-mentativity not only to science but transcendental-
preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology—behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturaing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of seconndatured education practically available to everyone interested, and so while alienating and considering general social wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} as improper and unqualified. This was to avoid a circularity of wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}
undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The point
here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by

<amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-
‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications>}

but rather ontological-pertinence, and the point in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not <amplituding/formative> wooden-
language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—
meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void ’-with-regards-to-

implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s
with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency’ \(\langle transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness \rangle \). This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of \(<amplituding/formative-epistemicity>totalising-self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency’ \(\langle transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness \rangle \) thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism-imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> -as-veridical-epistemicity-relativism-determinism implied \(<amplituding/formative-epistemicity>causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,—for-explicating—\)
ontological-contiguity associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of various pertinent social manifestations: wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory—de-mentativity in formal institutional percolation-channelling—<in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory—de-mentativity as to existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression; the ontologically-flawed articulation of knowledge by an intellectual disposition akin to
effecting intemporal implications means that the requisite intemporal/longness-of-register-of-
meaningfulness-and-teleology\(^9\) psychoanalytic-unshackling positive-opportunism—of-
social-functioning-and-accordance can crossgenerationally be induced for Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology despite the inherent circular distractiveness of temporality\(^8\), and ultimately so as enabled by ‘social universal-transparency\(^10\)’\(^{10}\)\(^\{\text{transparency-of-totalising-entailing,-as-to-entailing-}<\text{amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness}\}\}. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism—meaningfulness-and-teleology\(^9\) constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^8\), crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the
underlying sovereignty and knowledge dynamics as of eliciting ‘social  
universal-transparency\textsuperscript{\ref{103}} \langle\text{transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness}\rangle’. As it is the latter that induces that social positive-opportunism—of-social-functioning-and-accordance\textsuperscript{\ref{26}} for deferential-formalisation-transference and institutional percolation-channelling-\langle\text{in-deferential-formalisation-transference}\rangle, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential \textsuperscript{\ref{83}} reference-of-thought, transcendental knowledge is of a circular but consistent exercise of \textsuperscript{amplituding/formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought}, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity \langle\text{between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema}\rangle \textsuperscript{\ref{96}} reference-of-thought and introducing the prospective ontological-contiguity\textsuperscript{\ref{67,83}} reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human\textsuperscript{amplituding/formative-epistemicity-totalising—purview-of-construal’}. to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence<as-to-psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment by}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating>’. This can’t be the case because dialogical-equivalence<as-to-psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment by}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating> can only arise where there is ‘common 83 reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness 87-of-83 reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold 02 as of prior relative-ontological-incompleteness 08-of-07 reference-of-thought, and not such a flawed notion of dialogical-equivalence<as-to-psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-{preconverging-disentailment by}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating>’. We can appreciate even within a same 8 reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence<as-to-

It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold\textsuperscript{02} mental-reflexes of \textsuperscript{33}amplituding/\textsuperscript{33}formative–\textsuperscript{33}epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} which is ‘ontologically flawed and wanting’ but rather is as of a \textsuperscript{5}maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{7}—unenframed-conceptualisation intemporal-projection transcendental-enabling/sublimating/supererogatory-de-mentativity for prospective institutionalisation relative to such \textsuperscript{33}amplituding/\textsuperscript{33}formative–\textsuperscript{33}epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} that circularly reinstitute the uninstitutionalised-threshold\textsuperscript{02} temporality\textsuperscript{09}/shortness as if intemporal in \textsuperscript{5}incrementalism-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective\_attendant–ontological-contiguity\textsuperscript{7}—educed–existentialising/contextualising/textualising-contiguity\textsuperscript{86}. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness\textsuperscript{87}–of-axiomatic-construct-or–reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity\textsuperscript{<between—prior>shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema_and_prospective-profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our

schema> of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the preconverging/postconverging—de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology-<in-preconverging-existential-extrication-as-of-existential-unthought> denaturing of
knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging—existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism—of-social-functioning-and-accordance” it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing’, so-construed as organic-knowledge. Organic-knowledge requires the articulation of ‘meaningfulness-and-teleology’ rather in postconverging—nonextricatory-existentia—preempting—of—existential—unthought terms—as—of—axiomatic—construct as the profound—and—complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation—and—adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as—of—axiomatic—construct as of the latter teleologically-degraded prior relative-ontological-incompleteness—of—reference—of—thought meaningfulness-and-teleology’. Likewise meaningfulness-and-teleology’ articulated as of deprocrypticism—or—preempting—disjointedness—as—of—reference—of—thought relative to our positivism—procrypticism necessarily requires priorly the requisite apriorising—teleological-elevation-in-ontological-contiguity from positivism—procrypticism’s disjointedness—as—of—reference—of—thought mindset into deprocrypticism’s preempting—disjointedness—as—of—reference—of—thought

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/superegotary–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising–recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme.

For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality\<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motif-and–
apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology’-<in-preconverging-existential-extrication-as-of-existential-unthought>- as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–‘notional–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’–as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality’/shortness <amplitude/formative> wooden-language-{imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}) to be able to achieve transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, and so as of intemporality’. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-
disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} is construed as the more profound attitude/mental-disposition/care–and–episteme\textsuperscript{5} for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme\textsuperscript{5} of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27}’, for achieving transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27}. The idea being
<conjugatively-and-transfusively> the ontological-contiguity\(^{65}\) of-the-human-institutionalisation-process\(^{68}\) as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{99}\) at the given registry-worldview/dimension, and so-construed as temporal extricatory preconverging—de-mentating/structuring/paradigming. Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{99}\) as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness\(^{87}\)-of—reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care—and—episteme\(^{5}\) contrast as clarified in the preceding example as of the technical and existential emancipating possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care—and—episteme\(^{5}\) in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness\(^{88}\)-of—reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care—and—episteme\(^{5}\) can pertinently be defined as the ‘assumed-and-unflinching transversality\(<\text{for-sublimating—existential-eventuating/denouement}>\sim\text{of—}\) affirmative-and-unaffirmative—disambiguated—motif-and—apriorising/axiomatising/referencing’\(^{101}\) inducing a given specific ‘nonpresencing—<\text{perspective—ontological-normalcy/postconvergence}> outcome with regards to prospective relative-ontological-completeness\(^{87}\)-or-incompleteness-of—reference-of-thought as of the construal—as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology\(^{99}\) associated with that attitude/mental-disposition/care—and—episteme\(^{5}\). It can be construed with regards to prospective
episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care–and–episteme in detachment from <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} as we know that, everything being equal legitimately, it is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-as-dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\(^{27}\) attitude/mental-disposition/care–and–episteme\(^{5}\) whose workmanship is guaranteed to produce the best and safe outcome for electrical installations; and so dispensing-with-immediacy-for-relative-ontological-completeness\(^{27}\)-by-reification/contemplative-distension\(^{27}\) as of <amplituding/formative> wooden-language\(^{27}\) (imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} dispositions thus expanding human needs and desires possibilities. Likewise, the dispensing-with-immediacy-for-relative-ontological-completeness\(^{27}\)-by-reification/contemplative-distension ‘assumed-and-unflinching transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^{101}\) of a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\(^{5}\) as of its prospective relative-ontological-completeness\(^{27}\)-of-’reference-of-thought over a relative-ontologically-flawed attitude/mental-disposition/care–and–episteme is implied for prospective ‘reference-of-thought transcendence-and-sublimity/sublimation/superrerogatory–de-mentativity, as of overall
institutionalisations as mainly concerned with the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as absolute reference of ‘meaningfulness-and-teleology’ ‘with little sense of coherence as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, and thus the latter cannot unlike the former be the framework for aetiologisation/ontological-escalation as of universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as intemporality/longness or eliciting of <amplituding/formative> wooden-language⟨imbued—averaging-of-thought⟩=as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’ -with-regards-to-prospective-apriorising-implications⟩’. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness–of-axiomatic-construct-or—reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically,<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism ‘meaningfulness-and-teleology’, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter
dominance of positivism arising as of its <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating–ontological-contiguity induced positive-opportunism—of-social-functioning-and-accordance ~as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity <profound-supererogation of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity <between—prior-shallow-supererogation of-mentally-aestheticised–preconverging/dementing–qualia-schema_and_prospective-profound-supererogation of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> given the latter’s flawed preconverging–de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness—of—reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality~<for-sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of–ontological-contiguity>

Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology<sup>99</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought> denaturing<sup>16</sup> of the requisite intellectualism required for further Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology<sup>1</sup>, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/’maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity<sup>84</sup> practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing<sup>16</sup> predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublation/supererogatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology<sup>99</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness<sup>88</sup>-of—reference-of-thought construes of ‘implied

Central to such incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent <amplitudine/formative–epistemicity>causality —as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation that in many ways could just as well validate <amplitudine/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications}> and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplitudine/formative–epistemicity>totalising—in-relative-ontological-completeness } that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-
veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging~‘motif-and-apriorising/axiomatising/referencing’—entailing—existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective—nonpresencing—,for-explicating-ontological-contiguity’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet,
‘ontologically unconstrained framework as of prospective relative-ontological-completeness as of prospective non-presencing, for explicating ontological-contiguity and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of wooden-language- ⟨imbued—averaging-of-thought⟩ as to leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology as of nondescript/ignorable—void with-regards-to-prospective-apriorising-implications⟩ and untransvaluated—temporal-intemporality social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sUBLIMITY_SUBLIMATION_SUPEREROGATORY—DE-MENTATIVITY. In this latter respect, and for the possibility of prospective social transcendence-and-sUBLIMITY_SUBLIMATION_SUPEREROGATORY—DE-MENTATIVITY and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of—

For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} necessarily explains the ‘mutually transversality-⟨for-sublimating–existential-eventuating/denouement⟩~of-affirmative-and-unaffirmative–disambiguated--‘motif-and-apriorising/axiomatising/referencing\textsuperscript{3101} unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{99} and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity as of \textsuperscript{83}reference-of-

It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social<br><amplituding/formative-epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic
knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme preconverging/postconverging–de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually preconverging/postconverging–de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register—meaningfulness-and-teleology that prospectively construes of successive frameworks of ‘reference-of-thought—devolving-teleological—mentating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated—reference-of-thought—categorical-imperatives/axioms/registry—teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness—and-teleology—knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue’ as of the specific institutionalisation, to ensure that human meaningfulness-and-teleology ontological-performance—<including—virtue-as-ontology> will remain intemporal-as-ontological as of their reference-of-thought—

engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of meaningfulness-and-teleology are as of a projected-or-anticipated apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educated—existentialising/contextualising/textualising-contiguity }—confatedness—in{preconverging—disentailment—by}—postconverging-entailment of social universal-transparency for institutional and formal deferential-formalisation-transference as of percolation-channelling-{in-deferential-formalisation-transference}. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating—{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} ideal which is socially-too-abstract but rather as a de-mentating/structuring/paradigming secondnatured construct of positive-opportunism—of-social-functioning-and-accordance as of institutional and formal percolation-channelling-{in-deferential-formalisation-transference} to attain social approbation. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplituding/-formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative
depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency/hyperbole-of-temporal-to-intemporal-ontological-performance-including-virtue-as-ontology) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency/hyperbole-of-temporal-to-intemporal-ontological-performance-including-virtue-as-ontology) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology as the opportunity
for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive preconverging/postconverging–de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–
existentalising/contextualising/textualising-contiguity }–constitutedness in preconverging entailment to the notion of nation-state seems to create an impasse for human Being-and-
contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the totalising-throwness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or

But then an adjunctive-metaphoricity -signification so produced as reflected by ‘a transcendental syncretising-effecting ‘meaningfulness-and-teleology’’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater ‘meaningfulness-and-teleology’<amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’.
Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative-epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting~as-to-possibilities-of-self-becoming-as-of-'existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe ‘meaningfulness-and-teleology’ as not self-referentially covered by the ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity/significations to that prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation<as-to-the-
mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity -significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative-epistemicity> totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative-epistemicity> totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment’ <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> for its evolving-and-devolving construct of meaningfulness-and-
Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment-by} postconverging-entailment.

The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon/projection driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such

much more than the construal of conceptual sublimation knowledge outcome, but rather its
construal as knowledge involving the dynamic understanding of both its

prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just
about its conceptualised intemporality-as-ontology but involves grasping this together with
the implications of temporality, and so because of the circular existential implications of
human limited-mentation-capacity. Hence language can be more pertinently construed
ontologically as of the postconverging/preconverging epistemic—projective-equalisation social
dynamics of existential signification than just as of just an
outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection
that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential

the existentially veridical and effective basis for reflecting historiality/ontological-

existentially insightful “meaningfulness-and-teleology”. Such a perspective should possibly
usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology;<in-preconverging-existential-extrication-as-of-existential-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricty-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricty-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising — referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-

While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated~ existentialising/contextualising/textualising-contiguity } conflatedness -in-{preconverging-disentailment by} postconverging-entailment, it does effectively elicit such an underlying conception of phenomenological profundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag12 implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—epistemic-totalising’–hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting~as-to-possibilities-of-self-becoming-as-of–existing-interpretation/epistemicity-in-

It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of the transcendental implications of prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing arrived at by human limited-mentation-capacity-deepening as of de-mentation
the ‘foreboding concern for ontological-veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming> that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, and so implying human limited-mentation-capacity-deepening ; and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is the full apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \sim\text{educed–existentialising/contextualising/textualising-contiguity}\}--constitutedness in \{preconverging-disentailment by\}–postconverging-entailment reflecting existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming> in its \‘nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle, and so beyond just a Derridean freeplay différance which is then in apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \sim\text{educed–existentialising/contextualising/textualising-contiguity}\}--constitutedness in \{preconverging-entailment\} as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \sim\text{educed–existentialising/contextualising/textualising-contiguity}\}--constitutedness in \{preconverging-entailment\} because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-
absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming. So because at the point of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming and not make any determination priorly, even as of freplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression as validatable by causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating—ontological-contiguity. Thus behind ontological-faith-notion-or-ontological-fideism—
unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness of reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension of reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-
individuation-ontological-performance\textsuperscript{72}<-including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of }\textsuperscript{epistemicity} totalising–thrownness-in-existence\textsuperscript{5} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{72}<-including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipating social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern \textsuperscript{18} deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. transcendence-and-sublimity/sublimation/supernovogatory–de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology’[9]–<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{9}\)–, that reflects a human tacit awareness that the grounding of its ‘meaningfulness-and-teleology’[9] is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete ‘meaningfulness-and-teleology’. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a \(8^{9}\) reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics–axiomatic-constructs within the positivism/rational-empiricism \(8^{9}\) reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of \(8^{9}\) reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into ‘meaningfulness-and-teleology’[9] as grounded on a given ‘registry-worldview’s/dimension’s \(8^{9}\) reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^{9}\) established existential–epistemic-totalisation-of–‘meaningfulness-and-teleology’ \(^{9}\) as well as the ‘psychological comfort’ habituated at the given \(8^{9}\) neutralising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being–development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology \(^{9}\) as of prospective notional–deprocrypticism is exactly the capacity to construe \(8^{9}\) ‘meaningfulness-and-teleology’ \(^{9}\) of as full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for \(8^{9}\) ‘meaningfulness-and-teleology’ beyond-the-consciousness-awareness-teleology \(^{9}\)–
<in-preconverging-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness of reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—conflicatedness in {preconverging—disentailment by} postconverging-entailment implication with respect to existence-potency ~sublimating—nascence—disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing-<perspective—ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency ~sublimating—nascence—disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness of-axiomatic-construct-or reference-of-thought <ampliunding/formative—epistemicity> causality as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness of reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional—deprocrypticism registry-worldviews/dimensions nonpresencing-<perspective—ontological-normalcy/postconvergence> respectively as successive
meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism presencing—absolutising-identitive-constitutedness. Interestingly, we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon/projection of meaningfulness-and-teleology.

However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior non-presencing—perspective–ontological-normalcy/postconvergence even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity between—prior-shallow-supererogation—mentally-aestheticised—preconverging/dematting—qualia-schema_and_prospective-profound-supererogation—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neutering as it fails to construe of meaningfulness-and-teleology projectively as of prospective existence-potency sublimating–nascence, disclosed—from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing. The implied maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation notion also underscores the postmodern conception of human-subject-emancipating-relativism-driven-recomposuring—
constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-
absolutising-identitive-constitutedness. This social knowledge human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness of reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of amplituding/formative-epistemicity causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity by existence-
potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as to the inherent nature of existence/intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology’ that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to

That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon/projection for grasping prospective ‘meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence (implicated—nondescript/ignorable—void—as-to—presencing—absolutising-identitive—constitutedness) illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical ‘meaningfulness-and-teleology’. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging—de-mentating/structuring/paradigming for construing knowledge
is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about
‘human blindness which needs to be resolved first before proceeding to see’, as what is to be
seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to
develop the necessary human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as
underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance-including-virtue-as-ontology. In registry-worldview/dimension terms, the naivety of ‘failing to recognise
that human limited-mentation-capacity deepens by human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing paradoxically and
ridiculously amounts rather to construing of a prospective registry-worldview/dimension
institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-of-reference-of-thought as of a shallower limited-mentation-capacity (as to

faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness’ re-originary—as-unenframed/unbeholdening/outlier-conceptualisation{imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional-deprocrypticism-prospective-sublimation’} appraisal of human narratives as to dimensionality-of-sublimating ⟨amplituding/formative>supererogatory–dentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ thus implying rather a notional–deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation’ parameterisation/reparameterisation (reflecting a supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation}–as-so-operationalising ‘scalarisation-as-to-rescalarisation-as–re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging-or-dementing apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking apriorising-psychologism; as the point of assertion of postmodern-
thought as deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism/relative-scope and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism/relative-scope and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism/relative-scope and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constatations’ as of human limited-mentation-capacity prospective relative-ontological-completeness -of- reference-of-thought <amplituding/formative—epistemicity>causality ~as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity ; wherein for instance, for the recurrent-utter-uninstitutionalisation reference-of-thought ill-health is as of a attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—lowest-level-reification perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-
worldview/dimension institutionalisation framework the idea of ‘concurrent causality as-to-projective-totalitative-implications-of-prospective nonpresencing,-for-explicating-ontological-contiguity’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its totalising/circumscribing/delineating reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent causality as-to-projective-totalitative-implications-of-prospective nonpresencing,-for-explicating-ontological-contiguity’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s totalising/circumscribing/delineating reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology–<in-preconverging-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-verticality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent causality as-to-projective-totalitative-implications-of-
prospective- nonpresencing,-for-explicating-ontological-contiguity’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its amplitude-formative-epistemicity-totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its amplitude-formative-epistemicity-totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’, establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from
their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-unenframed/unbeholding/outlier-conceptualisation (imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘-of-notional-deprocrypticism-prospective-sublimation’)) originary/event ‘-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating {(amplituding/formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality) as inclination to adhere to prospective preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity’ is very much limited and such prospective ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has
social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness\(^*\)-of-\(^*\)reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective preconverging/postconverging–de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness\(^*\)-of-\(^*\)reference-of-thought supersedes the prior relative-ontological-incompleteness\(^*\)-of-\(^*\)reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing.-for-explicating-ontological-contiguity’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying sterile/anecdotal imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance\(^*\)-<including-virtue-as-ontology> of any \(^*\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^*\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^*\).

Already, postmodern interpretations have increasingly been much more relevant practically to
normalcy/postconvergence-implied-’prospective-aporeticism-overcoming/unovercoming’>’ for the given attitude/mental-disposition/care–and–episteme ‘true ‘meaningfulness-and-teleology”’ ontological-performance”’-<including-virtue-as-ontology>. Where beyond-the-consciousness-awareness-teleology””-<in-preconverging-existential-extrication-as-of-existential-unthought>”, the new/prospective attitude/mental-disposition/care–and–episteme ‘given its prospective relative-ontological-completeness”-of” reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness”-of” reference-of-thought, this induces apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness”-in–preconverging–entailment ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme ‘”; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern 8 deprocrypticism–or–preempting—disjointedness-as-of-8 reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme”’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme”, as of 8 deprocrypticism–or–preempting—disjointedness-as-of-8 reference-of-thought is rather a notional–conflatedness as of deneuterising 17 protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern 1 deprocrypticism–or–preempting—disjointedness-as-of-1 reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core
postmodern-thought is implying a prospective/new prospective relative-ontological-completeness of reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as of huma attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of proconverging~‘motif-and-apriorising/axiomatising/referencing’—entailing—existentialising—enframing/imprintedness—{as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of—reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—imbued—postconverging/dialectical-thinking—projective-insights’/‘epistemic-projection-in-

<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> is so with regards
to the inherent ontological sublimating human possibility in existence/intrinsic-
reality/ontological-veridicality as to human-subpotency implied human potential, and so as
emphasised and reflected with regards to the need for human limited-mentation-capacity-
deepening. We can garner insight about how we tend to misconstrue any attitude/mental-
disposition/care–and–episteme that is different from our own ‘present attitude/mental-
disposition/care–and–episteme’, whether it is a ‘prior/old superseded attitude/mental-
disposition/care–and–episteme’ or a ‘prospective/new superseding attitude/mental-
disposition/care–and–episteme’. For instance, in the previous articulation of the attendant–

attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness -and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality<for-sublimating–existential-eventuating/denouement~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension
implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension’ reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’.

recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness of reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology posture in <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality-as-to-'human-amplituding-formative-epistemicity-totalising-purview-of-construal’, the ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme ’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective preconverging/postconverging—de-mentative/structural/paradigmatic prospective

is rather palliative as of its selecting, triaging, mutually-concurring-and-accommodating and
power-relations driven palliating virtue constructs. The question can actually be asked, as of
prospective relative-ontological-completeness of reference-of-thought of the notional-
discontiguity/epistemic-discontiguity of this ‘made-up’ normativity supposed ontological-contiguity, whether such a prior
relative-ontological-incompleteness of reference-of-thought as is actually as of Being-development/ontological-framework-expansion–as-to-depth-of-

and so superseding that of the uninstitutionalised-threshold. We can appreciate in this regard
that budding-positivism/rational-empiricism and its associated liberality that was the backdrop
for technical and organisation possibilities that actually required their interpretation in terms–
as-of-axiomatic-construct of advancing human emancipation and bringing an end to serfdom in
Europe for instance, but as of a perverted twist due to poor appreciation of Being-

It is to be noted here that the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument precedence of

while seemingly counterintuitive, simply speaks of the implications of the notion of prospective
relative-ontological-completeness\textsuperscript{87} of reference-of-thought/prior relative-ontological-incompleteness\textsuperscript{88} of axiomatic-construct as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human\textsuperscript{amplituding/}formative–epistemicity’ totalising–purview-of-construal’, in that our appropriate-or-inappropriate-at-various-successive-levels conception as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human\textsuperscript{amplituding/}formative–epistemicity’ totalising–purview-of-construal’ has nothing to do with inherent existential reality but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \textsuperscript{89}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{90}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} in order to reflect ontologically-veridical signification as of existence. And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions \textsuperscript{83}reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{89}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate that prospectively we are equally in such a beheld positivism–procrysticism attitude/mental-disposition/care–and–episteme ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{89}, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99}’ for our positivism–procrysticism aposteriorising/logicising/deriving/intelligising/measuring

Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory–mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology. ontological-bad-faith/inauthenticity with respect to ‘mechanical practice’ of prior reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation. In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—including-virtue-as-ontology. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign
judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wood-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications); pointing to the centrality of originariness-parrhesia—as-spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological—as-to-the-limitation-of-human-subpotency—in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s—sublimating—nascence> and the more salient point is in instigating their more profound ontologisation/ontological-veracity/aestheticisation-towards-ontology as of relative-ontological-incompleteness/relative-ontological-completeness—{sublimating—registering/decisioning—as-self-becoming/self-conflatedness/formative—supererogating—projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence}> <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity. It is thus not odd that as of human emotional-involvement implications, Socratic-philosophers \(103\) universalising-idealisation and budding-positivists projected \(\text{meaningfulness-and-teleology}^{99}\) infrastructure rather met initially with the antipathy of their underpinning-suprasocial-construct and \(<\text{amplituding/formative}>\text{wooden-language}^{99}\) (imbued—averaging-of-thought-\(<\text{as-to-leveling/ressentiment/closed-construct-of–imbedding—averaging-of-thought-}\text{as-to-leveling/ressentiment/closed-construct-of–}\) \(\text{meaningfulness-and-teleology}^{99}\) \(\text{as-of-}\text{‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}>\)} and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic \(7^{3}\) presencing—absolutising-identitive-constitutedness \(3^{1}\) ontologically-flawed disparateness-of-conceptualisation\(\text{<unforegrounding-disentailment,-failing-prospectively-to-reflect-‘immanent-ontological–contiguity’>}\) whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the \(103\) universalising-idealisation \(\text{meaningfulness-and-teleology}^{99}\) infrastructure of the Socratic-philosophers and their successors as providing the appropriate \(\text{meaningfulness-and-teleology}^{99}\) infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced \(\text{meaningfulness-and-teleology}^{99}\) infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism \(\text{meaningfulness-and-teleology}^{99}\) infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent
socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as <amplituding/formative–

preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–
procrypticism) implications’. This discrepancy (between the human capacity to achieve
transvaluation and effective social–value-construction narrative as of any given registry-
worldview/dimension) is reflected in the underlying reality that effectively practised human
value-construction is the ‘outcome of privileged institutional end-purpose
perspective/framing/reference/horizon/projection’; wherein social–value-construction across the
successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment –<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process points to changing ‘preconverging/postconverging–de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the preconverging/postconverging–de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent preconverging/postconverging–de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be
construed as of deficient value-construction as from a prospective perspective of combinatory/formative–epistemicity causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of combinatory/formative–epistemicity causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction,
intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social-value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social-value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification–gesturing of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional–deprocrypticism or notional–preempting—disjointedness-as-of reference-of-thought appropriate foregrounding entailment of social–value-construction–elicited from prospective–profound-supererogation ‘-in-reflecting-‘immanent-ontological-contiguity ’; as-operative-notional–deprocrypticism}; and so as the disparateness-of-conceptualisation of our rational-empiricism/positivism occlusivity in its
amplituding/formative} wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} tend to rather reflect our amplituding/formative–epistemicity totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprockypticism–or–preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is preconverging/postconverging—de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—including-virtue-as-ontology/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to
‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) as of successive human construction-of-the-Self as from based animality to trepidatious–self-consciousness, warped–self-consciousness, preclusive–self-consciousness, occlusive–self-consciousness and prospectively protensive–self-consciousness. Thus human limited-mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup \( \text{universal-transparency} \) \textlangle transparency-of-totalising-entailing, as-to-entailing, \textlangle amplituding/formative–epistemicity \textrangle totalising~in-relative-ontological-completeness⟩ of supposedly coherent ontological-commitment \langle implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality⟩ with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such \( \text{universal-transparency} \) \langle transparency-of-totalising-entailing, as-to-entailing, \textlangle amplituding/formative–epistemicity \textrangle totalising~in-relative-ontological-completeness⟩ is muted and where such \( \text{universal-transparency} \) \langle transparency-of-totalising-entailing, as-to-entailing, \textlangle amplituding/formative–epistemicity \textrangle totalising~in-relative-ontological-completeness⟩ is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as—spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in ‘presencing—absolutising-identitive-constitutedness’ as of prior

It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification–gesturing<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment> interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and
in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. further twist to such a poor conception of human sovereignty and free-will in the social arises
as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being preconverging/postconverging–de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being preconverging/postconverging–de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and
institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather preconverging/postconverging–de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness –{sublimating–referencing/registering/decisioning,–as-self-becoming/self-

phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of
institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks
as reflective of socially-perceived commendation and disapprobation’, as advancing human
sovereignty and free-will as of deferential-formalisation-transference implications, can be rather
straightforward with regards to relatively compact/self-contained institutional functions and
roles usually involved in direct public service delivery but it is much more difficult with
spurious/supporting institutional functions and roles. We can appreciate in this regards that
public scandals generally tend to arise out of public services and private services delivery
institutional frameworks as of their relatively compact/self-contained institutional functions and
roles, and that issues of transparency rendering such assessment difficult generally arise with
regards to underlying spurious/supporting/supervisory/regulatory institutional functions and
roles. In another respect concerning the modern-day media, the need for relevant and
balanced/equanimous communication and information delivery to the general public has
increasingly been taking a backseat, and so fundamentally as the media becomes more of a
business-making institution and rather plays a weaker and ancillary/perfunctory role in public
policies and politics accountability. This is paradoxically reflected in the reality that despite the
huge choice of media today, strangely enough this has rather been associated with greater
public muddlement with regards to political stakes and public policies; undermining the
political process as increasingly public policies are preconvergingly–de-
mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/ framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’,
overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness\(^{53}\) as to the (sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>\) as to human-and-social–expectations/anticipations—metaphoricity\(^{69}\)–as-preconverging/postconverging–re-de-mentating/restructuring/reparadigming–psychologism’\(^{59}\) for knowledge-reification–gesturing\(^{57}\) <in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—confaltedness—in-{preconverging-disentailment–by}–postconverging-entailment> underlying sublating  ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’> as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility \-{imbued-and\} \\

apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness’/relative-ontological-completeness

<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—determinism>; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity as to the underlying supposedly coherent ontological-commitment—implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity—discretely-implied—functionalism—implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ outside attendant—ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social—
vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification–gesturing-<in-prospective psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— conflatedness—in-[preconverging-disentailment by]–postconverging-entailment> implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside attendant–ontological-contiguity’~educed–existentialising/contextualising/textualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness ’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness’/relative-ontological-completeness as to human-and-social–expectations/anticipations—metaphoricity—as-preconverging/postconverging–rede-mentating/restructuring/reparadigming–psychologism’ as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of:
apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument –for–conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing –apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-

This points to the reality that ‘human social-vestedness/normativity\:<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity construable ‘preconverging/postconverging–de-mentative/structural/paradigmatic implications of relative-ontological-completeness’ in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity\:<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness’/relative-ontological-completeness’
mentating/restructuring/reparadigming–psychologism’ may seem to arise; but as with say the
American civil war and the Haitian slave revolt, the reality that such implied ‘human social-

Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory theoretical-and-
<including-virtue-as-ontology> and more profoundly so specifically with enculturated/endemised postlogism and conjugated-postlogism social and institutional manifestations, and with regards to many social-stake-contention-or-confliction circumstances of poor social and institutional accountability. Basically, the bigger point here is that however the socially transformative implications as of prior originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation and beyond the elicited positive-opportunism—of-social-functioning-and-accordance underlying deferential-formalisation-transference, there is much more involved in overall social and institutional meaningfulness-and-teleology as to the ‘dynamic social and institutional conjugation of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> ontological-performance—<including-virtue-as-ontology> at destructuring-threshold—uninstitutionalised-threshold/presublimating—desublimating-decisionality—of-ontological-performance—<including-virtue-as-ontology>’.

Thus, there is a direct relation between human-subpotency and existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance~<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent "meaningfulness-and-teleology" but rather as of the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -{imbued-and-

{hermeneutically/textually/reprojectively/supererogatingly/zeroingly/re-acutingly}educing: ‘herein-specifically-relevant_human-subpotency’–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation}, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of notional–reflexivity <{veridical/sound}-relative-reflexivity–in-existence/relativising–from-limited-mentation, as
its-deepening—by—{flawed/unsound}-relative-unreflexivity—in-existence/absolutising—from

The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating —(<amplituding/formative>supererogatory-de-

This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness- and-its-institutionalisation bluntly profess that ‘human temporality/shortness wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality>). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-

On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}>’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening’). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-
well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating capableness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in ‘presencing—absolutising-identitive-constitutedness’ as ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’), and so towards humankind’s supposed future (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-
development magnitudes); and in many ways this \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the huma prospective potential as from the ontological-normalcy/postconvergence perspective conception of future \(^4\) historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism relevant to \(^4\) deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Such \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus foregoes the construal of human \(^5\) meaningfulness-and-teleology as a construct of re-originariness/re-origination of \(^5\) meaningfulness-and-teleology as to human limited-mentation-capacity-deepening so-implied from the ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective as to \(^5\) maximalising-recomposuring—for-relative-ontological-completeness — unenframed-conceptualisation and rather adopts the temporality/shortness comfort as of \(^5\) incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation hanging on to \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition \(^7\) presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus involves a \(<\text{amplituding/formative—}\)

Such that such ontologically-flawed-presencing-absolutising-identitive-constitutatedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development magnitudes) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of presencing—absolutising-identitive-constitutatedness-of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human
subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now preconverging/postconverging–de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of- meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘ presencing—absolutising-identitive-constitutedness meaningfullness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfullness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as
reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology\textsuperscript{99}<-in-preconverging-existential-extrication-as-of-existential-unthought\textsuperscript{99}); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as \textit{meaningfulness-and-teleology}\textsuperscript{99} with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{77} -by-reification/contemplative-distension\textsuperscript{27}. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a \textit{presencing—absolutising-identitive-constitutedness}<-of—\textit{meaningfulness-and-teleology}\textsuperscript{99} given \textit{historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}’ that passivises and blanks thus undermining/stifling the possibility for prospective \textit{historiality/ontological-eventfulness} /ontological-aesthetic-tracing<-<\textit{perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism}>. Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construed? This limitativeness of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notional–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation–and–aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening before any construable human panoramic-sublimating-criticality outcome of meaningfulness-and-teleology) has ever always been bound to take ‘a
conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care–and–episteme implied by Galileo and further conceptually articulated by Descartes’ thinking proposition as to its mathesis universalis implications, such that it is as of a crossgenerational transformation/supererogatory–de-mentativeness that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) to grasp the full preconverging/postconverging–de-mentative/structural/paradigmatic implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition with regards to the prospect of positivism/rational-empiricism aestheticisation—and–aestheticisation-towards-ontology as meaningfulness-and-teleology. Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic-philosophers as to its apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) induced crossgenerational transformation. This reality is equally applicable to our state of positivism–procrypticism as to a disinclination to perceive its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity –between—prior-shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema and prospective-profound-supererogation –of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema>) as projected from prospective deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing–psychologism to project of the <amplituding/formative–epistemicity> causality –as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity of prospective base-institutionalisation–ununiversalisation, just as the latter with prospective universalisation–non-positivism/medievalism, likewise the latter with prospective positivism–procrypticism, and likewise our positivism–procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of dimensionality-of-desublimating-lack-of
In this regards, this author construes such gimmicky pretences of intellection in our modern-day rather ‘intimating of preconverging-existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective’ with regards to otherwise preconverging/postconverging–dementative/structural/paradigmatic human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint issues (requiring the ontological-normalcy/postconvergence epistemic perspective in postconverging-nonextricatory-existential-preempting-of-existential-unthought), which articulation and constructive addressing should actually be the very conceptualisation of intellection. In this regards, we can appreciate that the Socratic-philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in postconverging-nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency as of sublimating–nascence,-disclosed-from-prospective-epistemic-digression) undermining their respective gimmickiness-of-thought (in preconverging-existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective) associated with sophists and medieval-scholastics then respectively defining the ‘thought/intellectual Establishment’, and that the possibility for such sublimating intellectualism as to its crude and unsavoury social discomfort implications is hardly a question of eliciting human temporality as of moral and intellectual
disenfranchisement/swindling/corruption/dispossession. In the bigger scheme of things

In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification–gesturing <in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness <in-{preconverging-disentailment-by}–postconverging-entailment> (as of ontological-normalcy/postconvergence epistemic perspective in postconverging-nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to sterile/anecdotal imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification–gesturing <in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness <in-{preconverging-disentailment-by}–postconverging-entailment> (thus rather tending towards preconverging-existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). implications of science-ideology are ultimately social and institutional as to the implications of
human emancipation; and so in the sense that contrary to what is generally thought, science
itself as for-human-studies is the very first-level of social science as of the epistemic
implications it projects upon society and social ‘meaningfulness-and-teleology’, and critically
so because in reality budding-positivists were actually the very first modern social scientists in
the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural
science they advanced’ like a heliocentric world or rational-empiricism driven natural science
basis of analysis (as to satisfy their mere natural science curiosity given that in many ways
some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a flawed prior_knowledge-reification—gesturing—priorPsychologism—apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising—constitutedness—in—preconverging—entailment—exercise that doesn’t factor in human limited-mentation-capacity-deepening as of ‘relative-ontological-incompleteness’/relative-ontological-completeness {(sublimating—referencing/registering/decisioning,—as-self—becoming/self-conflatedness /formative—supererogating—<projective/reprowjective—}

In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest--subpotencies--(in-transitive--conflatedness --reflexivity,-in-the-full-potency-of-existence’s--sublimating--nascence)’ with the ‘supposedly profound phenomenal/manifest--subpotencies--(in-transitive--conflatedness --reflexivity,-in-the-full-potency-of-existence’s--sublimating--nascence)’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity<discretely-implied-functionalism> disparities-of-conceptualisation<unforegrounding-disentailment,-failing-prospectively-to-reflect-'immanent-ontological-contiguity '>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency ~sublimating~nascence,--disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity '—of-the-
human-institutionalisation-process\(^\circ\). But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies–\((\text{in-transitive-conflatedness} \ – \text{reflexivity}, \text{in-the-full-potency-of-existence’s–sublimating–nascence})\) to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest–subpotencies–\((\text{in-transitive-conflatedness} \ – \text{reflexivity}, \text{in-the-full-potency-of-existence’s–sublimating–nascence})\)’ (as so- reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\(^\circ\)’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity}\)’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity\(^\circ\) imbedded \(^4\) fore-grounding _entailment_ (postconverging–narrowing-down–sublimation-as-to–‘existence–as-sublimating– withdrawal/unenframing,-elicited-from-prospective–profound-supererogation ’-in-reflecting- ‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism) of their respective inherent sublimating phenomenal/manifest–subpotencies–\((\text{in-transitive-conflatedness} \ – \text{reflexivity}, \text{in-the-full-potency-of-existence’s–sublimating–nascence})\) wherein for instance with the physics frame–of–ontological-contiguity\(^\circ\) succession of theories are developed aspiring cogently for ontological-contiguity\(^\circ\) of the whole physics epistemic-conception phenomenal/manifest–subpotency–\((\text{in-transitive-conflatedness} \ – \text{reflexivity}, \text{in-the-full-potency-of-existence’s–sublimating–nascence})\) as from say

existentialising/contextualising/textualising-contiguity), and thus in many ways further undermine/distinct-from the social ‘amplituding/formative-epistemicity’-totalising/circumscribing/delineating necessitation frame-of-ontological-contiguity’ conception of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-discretely-implied-functionalism’ implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification-gesturing-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity}—conflatedness-in-{preconverging-disentailment–by}–postconverging-entailment’ privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-
mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-dementativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ failure to directly grasp their very own totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology’ across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the ‘presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ of the ontological-performance—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ of human notional—firstnaturdedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence narratives’: and so
sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and-teleology—–in-cumulation/recomposuring apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as to their pre-eminence as of their ‘prospectively projected relative-ontological-completeness’ dimensionality-of-sublimating —{<amplituding/formative>supererogatory–de-

erationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}’. This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinarness/commensicality and social-vestedness/normativity—<discretely-implied-functionalism>’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinarness/commensicality and social-vestedness/normativity—<discretely-implied-functionalism>’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—<in-

preconverging-existential-extrication-as-of-existential-unthought>). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency—sublimating–nascence,-disclosed-from-prospective-

epistemic-digression and preconverging/postconverging–de-

dementatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-

arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency
methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation~unforegrounding-disentailment,-failing-prospectively-to-reflect–immanent-ontological-contiguity, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised sterile/anecdotal imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior
methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness-sterilising/anecdotalising/trivialising-of-prospective-reontologising_by-preconverging,-in-disontologising-formulaic–dragging-out/hollowing-out-of meaningfulness-and-teleology\(^{(9)}\) in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating\(^{(10)}\)

reference-of-thought); and as so articulated elsewhere with the case of the Socratic-
philosophers and budding-positivists it is always the case that the sophistic/pedantic
dispositions will fathom that in relation to prospectively sublimating base-institutionalisation,
universalisation, positivism and notional–deprocrypticism the effective ‘world that exists to
the majority people (as of ‘human notional–firstnaredness—temporal-to-intemporal-

the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to
which all specific domains of study need to account for their sublimating pertinence; and the
possibility of putting into question all ‘Establishment intellection as of their given
presencing—absolutising-identitive-constitutedness’ (from across the most ancient
civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots,
etc.) has always arisen within-or-without such epochal Establishment intellection by the
prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative
consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procripticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) as to an epistemically-decadent wooden-language (imbued—temporal—mere-—form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry—teleology ); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension out of concern about huma prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the
prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of- reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— conflatedness—in–{preconverging-disentailment_by}–postconverging-entailment> is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the flawed prior_knowledge-reification–gesturing-<in-prior_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— constitutedness—in–preconverging-entailment> exercise becomes pointless but as for
institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification–gesturing–in-prospective psychologism~apriorising/axiomatising/referencing–of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }— conflatedness ~in–{preconverging-disentailment by}–postconverging-entailment> implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more than <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag }. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity–discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has preconverging/postconverging–dementative/structural/paradigmatic implications with regards to human ‘meaningfulness-and-teleology (as to human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness} <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag {) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively
mentation-capacity-deepening" (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness®), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance®<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism’ and ‘a non-scalarity/beholdening-perspective–as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ perspective (with regards to flawed/unsound-relative-unreflexivity–in-existence/absolutising–from-limited-mentation residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness®-by-reification/contemplative-distension® doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness®-by-reification/contemplative-distension® rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness®) underlying the overall existential

But then such}
effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-{as-to-underlying,-ontological-commitment}<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-

That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of
veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity—relativism—determinism’>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological—<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering—reflexivity-of-the-full-potency-of-existence’s—sublimating—nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity—<discretely—implied—functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective notional—deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment —<implied—self—assuredness—of—ontological—good—faith/authenticity—postconverging—de—mentating—structuring—paradigming—as—being—as—of—existential—reality> (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation—(as—to—underlying—.ontological-commitment —<implied—self—assuredness—of—ontological—good—faith/authenticity—postconverging—de—mentating—structuring—paradigming—as—being—as—of—existential—reality> (reflecting ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’). In this regards, the preconverging/postconverging—de—mentative/structural/paradigmatic implications of ‘human notional—firstnaturedness—temporal-

psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that huma prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective preconverging/postconverging–de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was
the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism preconverging/postconverging—de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation\(^9\) (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness\(^8\) logical-basis/logic,-as-derived-from—transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’> is in transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ with the relative-ontological-incompleteness\(^9\) logical-basis/logic,-as-derived-from—transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’>, it is only the sublimation as to existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation\(^9\) that affirmatively upholds the relative-ontological-completeness\(^8\) over the relative-ontological-incompleteness\(^9\) (as to their supposedly coherent ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-
existential-reality>). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~ is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~ existential-condescension~of-apriorising/axiomatising/referencing–psychologism’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes as to the positive-opportunism—of-social-functioning-and-accordance~ implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology~ of such ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~ existential-condescension~of-apriorising/axiomatising/referencing–psychologism’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology~. In this respect with regards to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary~ desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical~ meaningfulness-and-teleology~ (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~postconverging–de-
mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing–qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing–qualia-schema of our procrypticism–or–disjointedness-as-of–reference-of-thought uninstitutionalised-threshold as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). This poor appreciation arises for the simple reason that the
uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity\(^2\) -between—prior-shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised-postconverging/dialectical-thinking -qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness\(^3\) —apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying,-ontological-commitment\(^4\) —implied—self-assuredness-of-ontological-good-faith/authenticity —postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>)’ imbued foregrounding entailment {postconverging—narrowing—down—sublimation-as-to—‘existence—as-sublimating-withdrawal/unenframing—elicited-from-prospective—profound-supererogation ’-in-reflecting—‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism] that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity —postconverging—de-mentating/structuring/paradigming existential-condescension—(of-apriorising/axiomatising/referencing—psychologism>’ as to prospective institutional-development—as-to-social-function-development and living-development—as-to-personality-development magnitudes. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the medieval-scholasticism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively
invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring<as-to-preconverging-or-dementing-apriorising-psychologism>, the requisite ‘ontological-good-faith/authenticity existential-condescension<of-apriorising/axiomatising/referencing-psychologism>’ for organic-knowledge ‘speaks to an intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for its elucidation and appropriate secondnatured institutionalisation that is not dissociated from the very construction-of-the-Self’, and knowledge cannot thus be construed as ‘a minor and side thing of mere influencing and stature’ that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-of-ten implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting wooden-language ⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications⟩ hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human institutional-development—as-to-social-function-development and living-development—as-to-personality-development magnitudes the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as to a disparateness-of-conceptualisation <unforegrounding-disentailment,-failing-prospectively-to-reflect—immanent-ontological-contiguity > which pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing-<

Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning—suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence ‘nondescript/ignorable—void ‘as-to-presencing—absolutising-identitive-constitutedness’; and it is here that the genuine social intellectual—function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance <-including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory—involuting-or-guilding—or-amplifying–scalarisation-as-to-existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective—profound-supererogation >, and the genuine social intellectual—function/posture as such is not about a naivist social-vestedness/normativity <discretely-implied-functionalism> as otherwise the possibility for the <cumulating/recomposuring—attendant-ontological-contiguity >-succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory—de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development-ontological-framework-expansion—as-to-depth-of-ontologising-
The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness <preconverging–‘motif-and-apriorising/axiomatising/referencing’–entailing>–existentialising—enframing/imprintedness}{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness<sup>14</sup> <preconverging–‘motif-and-apriorising/axiomatising/referencing’–entailing>–existentialising—enframing/imprintedness}{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology<sup>99</sup>){in-preconverging-existential-extrication-as-of-existential-unthought} positive-opportunism—of-social-functioning-and-accordance<sup>75</sup> of institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation<sup>96</sup>-profundity–postconverging–de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/contemplative-distension<sup>27</sup> for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology ), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly preconvergingly–de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–
function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existing-unthought>—positive-opportunism—of-social-functioning-and-accordance—of institutional-development—as-to-social-function-development and living-development—as-to-personality-development magnitudes) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given [presencing—absolutising-identitive-constitutedness ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human [presencing—absolutising-identitive-constitutedness] mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicuses, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose ‘meaningfulness-and-teleology’ infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human ‘meaningfulness-and-teleology’ (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human institutional-development—as-to-social-
function-development and living-development—as-to-personality-development magnitudes). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and preconvergingly—de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness <preconverging~‘motif-and-apriorising/axiomatising/referencing’—entailing>—existentialising—enframing/imprintedness—as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of social-vestedness/normativity <discretely-implied-functionalism> and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected~‘epistemicity-relativism-determinism’>) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite preconverging/postconverging—de-mentative/structural/paradigmatic sublimation-over-

The subtle manifestation of the social implications of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{99}<in-preconverging–existential-extrication—as-of-existential-unthought> positive-opportunism—of-social-functioning-and-accordance of institutional-development–as-to-social-function-development and living-development–as-to-personality-development magnitudes) with regards to our positivism–procrypticism registry-worldview/dimension can be appreciated in modern-day sycophantic-sophistry and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation.

The underlying insight here is that unlike the flawed mental-reflex associated with ‘presencing—absolutising-identitive-constitutedness’\textsuperscript{<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’} that preconverging/postconverging—dementatively/structurally/paradigmatically projects of a ‘neutrally/objectively sound human ontological-performance\textsuperscript{<including-virtue-as-ontology>} state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given \textsuperscript{amplituding/formative–epistemicity>totalising~thrownness-in-existence’}, human \textsuperscript{amplituding/formative–epistemicity>totalising~thrownness-in-existence’ as to human limited-mentation-capacity veridically implies that ‘existence is not of sublimative-reflexivity—beholdening to that human \textsuperscript{amplituding/formative–epistemicity>totalising~thrownness-in-existence’} and the critical human teleological as to ontological-performance’ \textsuperscript{<including-virtue-as-ontology>} issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence’. The implication here is that the ‘ontological-good-
faith/authenticity\(^{(69)}\)~postconverging~de-mentating/structuring/paradigming\(^{(70)}\)~existential-condescension~<of-apriorising/axiomatising/referencing~psychologism>’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation—and~existence—as-sublimating-withdrawal/unenframing,elicited-from-prospective~profound-supererogation\(^{(96)}\)<as-to-perspective~ontological-normalcy/postconvergence-implied~‘prospective-aporeticism~overcoming/unovercoming’\> with regards to human formativeness~<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology. Thus it is only the possibility of ‘ontological-good-faith/authenticity\(^{(69)}\)~postconverging~de-mentating/structuring/paradigming\(^{(70)}\)~existential-condescension~<of-apriorising/axiomatising/referencing~psychologism>’ that can thus allow human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness\(^{(14)}\)<amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance\(^{(72)}\)<including-virtue-as-ontology> cannot be neutrally be separated from human <amplituding/formative-epistemicity>totalising~thrownness-in-existence\(^{(35)}\) and the reflexive temporal-to-intemporal ontological implications on human ontological-performance’\>~<including-virtue-as-ontology>\>). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not of sublimative-reflexivity—beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-

We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance including-virtue-as-ontology’ state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~duced–existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence but together with the extraterrestrials is rather preconverging/postconverging–de-mentatively/structurally/paradigmatically in existential-discursivity—implicited-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality>) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—prospective_attendant–ontological-contiguity~duced–existentialising/contextualising/textualising-contiguity. our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing\(^1\)--apriorising-psychologism and not postconverging-or-dialectical-thinking\(^2\)--apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicit-sublimation-over-desublimation that explains why the educing—and—availing—and—re-availing of relative-ontological-completeness\(^7\) as to dimensionality-of-sublimating\(\langle\text{amplituding/formative—supererogatory—dementatively/epistemic-growth-or-confoundedness }/\text{transvaluative—rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation}\rangle\) takes precedence in defining human intellectual-and-moral ontological-performance\(^{72}\)--<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal/unenframing,—elicited-from-prospective—profound-supererogation\(^{69}\). This \(\langle\text{amplituding/formative—epistemicity}–\text{totalising—thrownness-in-existence}\rangle\) implied existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\(^{69}\)--postconverging—de-mentating/structuring/paradigming\(^{70}\) existential-condescension<-of-apriorising/axiomatising/referencing—psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness—<metaphoricity\(^{57}\)--disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human \(\text{meaningfulness-and-teleology}\)\(^{59}\) veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘preconverging/postconverging—aumentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance\(^{71}\)--<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educted–

This insight puts into perspective our particular insight into our absolutising-identitively-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologicalisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness specific apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } —ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance—<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern-day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that preconverging/postconverging–de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative–epistemicity>totalising–thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential

Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal/unenframing,-elicited-from-prospective–profound-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening). nonpresencing,-for-explicating-ontological-contiguity, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism—reifying{as-to-knowledge-developing}-and-
empowering in existence as ontological (so-reflecting \amplituding/formative\ disposedness/psychologismic-construct\(\text{as-to-orientation/value-construct/valuation-}\underline{\text{and-}}\underline{\text{derived-parameterising}}\) and \amplituding/formative\ entailment\(\text{as-to-totalising-contiguous/coherent-factuality-of-variability}\))’, as reflecting the implications of human limited-mentation-capacity-deepening \(53\) underlying the ontological-contiguity \(67\)—of-the-human-institutionalisation-process \(68\); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed \(79\) presencing—absolutising-identitive-constitutedness \(14\) given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility—of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness \(67\) preconverging/postconverging—de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness \(87\) sublimation implications, and so across the \text{cumulating/recomposuring–attendant-ontological-contiguity—successive registry-worldviews/dimensions right up to the originariness/origination—(so-construed-as-to-ontological-normaley/postconvergence-perspective-scalarising-construal-of-existence)} perspective of \text{deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness} \amplituding/formative\ epistemicity\(\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation. The so-implied notional–deprocrypticism as such points out that the ontological-contiguity—of-the-human-institutionalisation-process is rather associated with a ‘directly relevant trace of prospective human effectively-purist-sublimation—(reflecting—prospective- historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—
associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism—of-social-functioning-and-accordance social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall postconverging—dementating/structuring/paradigmising of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology’ instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human postconverging—aporeticism—overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite
immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\(^1\)–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\(^2\) and the immaterial/social overall relative-ontological-incompleteness\(^3\)–presublimation-construct–of–meaningfulness-and-teleology\(^9\) of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation–as-to-underlying,—ontological-commitment\(\langle\text{implied—self-assuredness-of-ontological-good-faith/authenticity}\sim\text{postconverging—de-mentating/structuring/paradigmming—as-being-as-of-existential-reality}\rangle\)’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness\(^7\) weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\(^8\)–presublimation-construct–of–meaningfulness-and-teleology\(^9\) value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising\(\langle\text{preconverging—’motif-and—apriorising/axiomatising/referencing’—entailing—existentialising—enframing/imprintedness}\rangle\) (as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance\(^{15}\) driving the secondnatured institutionalisation of human
sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{27} immaterial/social sublimation considerations that rise to the postconverging-aporeticism–overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology\textsuperscript{99}’ of our positivism–procrpticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-(so-construed-as-to-ontological-normaley/postconvergence-perspective-scalarising-construal-of-existence) perspective of notional~deprocrpticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness –presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{56}; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness’–presublimation-construct–of–‘meaningfulness-and-teleology’ instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations–blinded-to-their-relative-ontological-completeness – reference-of-thought- devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness\textsuperscript{14} to render the supposed equanimity/balance of the
overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the wooden-language displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the modern-day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments
involving high emotional charge quelling cerebral thinking as of the modern-day efficient disenchained technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’).

Even in the purely intellectual sense, modern-day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness—ontological-aesthetic-tracing—<perspective-ontological-normalcy/postconvergence-reflected—epistemicity-relativism—

It is no wonder that periods following heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a genuine social intellectual–function/posture obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very genuine social intellectual–function/posture (as to its abstract epistemic/notional possibilities for prospective sublimation/emancipation so-undermined by dominion/statal–logic—{preconverging/shallow-supererogating—‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’—as-to-its-specific–collateralising-beholdening—<whether–trepidatious-or-warped-or-preclusive-or-occlusive>—and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism>⟩) tend to be paradoxically re-construed (on the basis of dominion/statal–logic—{preconverging/shallow-supererogating—‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’—as-to-its-specific–collateralising-beholdening—<whether–trepidatious-or-warped-or-preclusive-or-occlusive>—and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism>⟩)

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness basis for such supposedly ontological insight so-critically provided by the veridical genuine social intellectual–function/posture. pursuit of such vague argumentations for subverting the genuine social intellectual–function/posture is rather all about the ruthless adoption of a perambulatory course for institutional and political ascendancy rather than a question of genuine preoccupation as to the requisite dispensing-with-immediacy-for-relative-ontological-completeness’–by-reification/contemplative-distension’ associated with veridically profound genuine social intellectual–function/posture and its sublimating implications of ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } ~ conflatedness ~ in {preconverging disenchantment by} postconverging entailment) as determining sublimating–existentialising–decisionality)’. In our modern-day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic (preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—dementating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) subverting the sublimating–existentialising–decisionality of the genuine social intellectual–function/posture; and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a
genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct <preconverging~‘motif-and-apriorising/axiomatising/referencing’–entailing>-existentialising—enframing/imprintedness-{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such postconverging–aporeticism–overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct
enframing/imprintedness—hyperrealisation/hyperreal-transposition (as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development magnitudes) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-ontologisation of alternative institutional aestheticising contemplation ‘given dominion/statal—logic’—calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance—including-virtue-as-ontology as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness—calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness—calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ (however their preconverging/postconverging—de-mentative/structural/paradigmatic flaws). Critically (beyond

conception of \(<_{\text{supererogatory~human-subpotency}}>-effecting\) is critically relevant in appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a modern-day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a practice of public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern-day training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional–self-distantiative contemplative technicity/profundity that inherent existence sublimating–nascence warrants to make available appropriately sublimating \(<_{\text{supererogatory~human-subpotency}}>-effecting\) (whether as to direct knowledge acquisition or appropriate percolation-channelling-\(<_{\text{in-deferential-formalisation-transference}}>-\) enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort-\(<_{\text{induced-sublimation,~as-from-existence’s—effusing/ecstatic–inlining-as–historiality-\{science/authenticity/nonextrication\}-beyond-mere-formulaicity-as-historicity-tracing-\{science-ideology/fashionability/distraction\}\}}\) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-

The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness—

counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of epistemic-totalising—hermeneutic/textuality/reprojecting/supererogating/zeroing/re-acuting potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/textually/reprojectively/supererogatingly/zeroingly/re-acutingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as- historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as- historicity-tracing-{science-ideology/fashionability/distraction}) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension”’ necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising ~resubjecting or totalising-entailing–reconstrual of attendant–ontological-contiguity~/~educed–existentialising/contextualising/textualising-

But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> so-reflected as of social notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>). In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence’, ‘human ‘meaningfulness-and-teleology’ is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflatedness/postconverging as to attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity~in-elucidation-or-reification knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening (thus implying human meaningfulness-and-teleology profoundness/ontologising-depth is of notional–nondisjointedness/contiguity/coherence as of

apriorising/axiomatising/referencing> and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness /preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-<reference-of-thought-of-apriorising/axiomatising/referencing> issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal/unenframing—elicited-from-prospective—profound-supererogation—<as-to-perspective–ontological-normalcy/postconvergence-implied—‘prospective-aporeticism—overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness—<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>—of—meaningfulness-and-teleology reflective of nonpresencing—<perspective–ontological-normalcy/postconvergence> epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in preconverging-existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its
capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism-reifying{as-to-knowledge-developing}-and-empowering’ imbued theoretical/conceptual/operant implications detour to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity-as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising,-prospectively-losing-track-of–epistemic-totalising—apriorising/axiomatising/referencing—residuality—in–re-originariness/re-origination’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive as {flawed/unsound}-relative-unreflexivity–in-existence/absolutising–from-limited-mentation conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation& notion of sovereignty associated with

The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging~‘motif-and-apriorising/axiomatising/referencing’—entailing—existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the-very-same social themes are recurrently and superficially raised as to a numbing-traction—of—desublimating—
